Performance of Portfolio Companies

- Strong performance for Caffè Borbone (revenues +16% and EBITDA +20% YoY) thanks to specialized stores and on-line channels
- Solid growth for Santa Maria Novella (revenues +8% YoY) despite wholesale orders delays, with lower EBITDA due to the increase in development costs
- Stable revenues for Tecnica (-3% YoY) but with a good level of order intake
- Strong growth for Capitelli (revenues +16% YoY) with lower EBITDA impacted by high raw materials prices
- Negative EBITDA for Italgen due to low rainfall and regulatory effects on prices and costs
- Stable performance for AGN Energia (revenues +0% and EBITDA -4% YoY) with lower LPG volumes compensated by growth in the energy efficiency business
- Iseo stable revenues (-1%) and lower EBITDA due to raw materials and personnel inflation and development costs
- Continuing growth for Casa della Salute with revenues +24% YoY (+31% adj. for Covid) and EBITDA flat due to expansion costs

Risk management

Italmobiliare periodically performs an integrated analysis of the main risk factors and related mitigation measures

- Portfolio risk analysis:
 - main risk indicators (VaR, CVaR and recovery time) are aligned with the average risk indicators of the global equity index
 - well diversified portfolio with a balanced degree of correlation of the different components
- Italmobiliare and each of the portfolio companies periodically monitor and analyze specific risk factors and identify precise actions for risk mitigation and hedging
 - Risk factors analyzed: capital markets, regulatory, sustainability, climate change, country and currency exposure, commodities, inflation, supply chain, technological disruption, rates, economic cycle, cybersecurity, etc.
- Exposure to different country/area risks: the NAV distribution proportional to the geographic diversification of sales shows a
 good level of diversification out of Italy (~60% of NAV linked to sales abroad). Out of the Italian NAV exposure approx. 70% is
 related to businesses with a low correlation to GDP (Borbone, AGN Energia and Italgen)
