REPORT ON CORPORATE GOVERNANCE AND THE OWNERSHIP STRUCTURE 2025

Introduction

This report on corporate governance and the ownership structure (the "**Report**") describes the corporate governance system adopted by Italmobiliare S.p.A. ("**Italmobiliare**" or the "**Company**").

The Report contains information on the ownership structure and the application of the Corporate Governance Code approved by the Corporate Governance Committee in January 2020, (the "**Corporate Governance Code**" or the "**Code**", available on the Borsa Italiana website at <https://www.borsaitaliana.it/comitato-corporate-governance/codice/2020-eng.en.pdf>). The Company resolved to adhere to the Code in 2021 and has since implemented its principles and recommendations. For the purposes of applying the Code, Italmobiliare qualifies, with reference to the definitions of the Code, as a "**large company**" with "**widely held ownership**". With regard to this last aspect, it is worth noting that, based on communications pursuant to Article 120 of the Consolidated Law on Finance (CLF), approximately 49% of the share capital is owned, directly and indirectly, by Mr. Carlo Pesenti.

The Report **refers to the year ended December 31, 2025** but has been updated for any significant subsequent events that took place up to the date of its approval. The information required by the European Sustainability Reporting Standards is included in the sustainability reporting section.

I. General information and the ownership structure

1. PROFILE OF THE ISSUER

Italmobiliare, the company controlled by the Pesenti family, was founded in 1946 and listed on the Italian Stock Exchange in 1980. It is an investment holding company with a diversified portfolio that is managed with a strategic vision backed by a financial and industrial history that goes back more than 150 years. The Company plays an active, ongoing role in expanding and enhancing the value of its portfolio, combining development, internationalisation and innovation with an effective governance and risk management model.

The profile of Italmobiliare and its activities is defined by:

- portfolio companies, i.e., a portfolio of investments in a limited number of subsidiaries or associates, with representation on their governance bodies, leveraging Italmobiliare's experience in managing business operations. The portfolio has a medium- to long-term investment horizon with a focus on value creation;
- investments in private capital funds and alternative investments aiming at seizing growth opportunities in geographical areas or business sectors where Italmobiliare is not directly involved and at fostering potential business development in diversified sectors;
- a portfolio of investments in diversified sectors focused on listed or unlisted companies offering interesting growth prospects or steady investment returns;
- liquidity under management and financial assets, consisting of limited-value investments, which constitute a reserve of cash and cash equivalents allocated to instruments with a conservative risk profile and available to the Company to seize new investment opportunities.

To date, Italmobiliare has adopted the so-called "traditional" governance model, with a board of directors (the "**Board of Directors**" or the "**Board**") and a board of statutory auditors (the "**Board of Statutory Auditors**"), both appointed by the Shareholders' Meeting (the "**Meeting**"). On the occasion of the next Shareholders' Meeting convened for April 22, 2026, certain amendments to the By-laws will be submitted to the shareholders in extraordinary session, including those intended to enable the adoption of the so-called "one-tier" administration and control system pursuant to Articles 2409-sexiesdecies et seq. of the Italian Civil Code, under which the functions of administration and control are respectively entrusted to the Board of Directors and to a management control committee established within it (the "**Management Control Committee**"), with no appointment of a Board of Statutory Auditors.

The Board of Directors submitted this proposal to the Shareholders' Meeting considering that the one-tier system enables international investors to gain a better understanding of the Company, as it is the governance system most recognised and widely adopted globally, and ensures, by virtue of the integration of the Management Control Committee within the Board of Directors, a constant synergy between the control function and the management function.

The Company's system of Corporate Governance is defined by the By-laws (the "**By-laws**") and the Corporate Governance Code, as well as by documents, codes and internal regulations, including:

- a. the Code of Ethics and the Organisation, Management and Control Model pursuant to Legislative Decree 231/2001;
- b. the Procedure for the management of relevant and inside information;
- c. the Code of Conduct on Internal Dealing;
- d. the Procedure for transactions with related parties;
- e. the Procedure for maintaining the list of persons with access to inside information (the so-called "insider list");
- f. the Procedure on market sounding;
- g. the Rules governing the Financial Reporting Officer (the "**Financial Reporting Officer**").

These documents are available on the Company's website, except for: (i) the Rules governing the Financial Reporting Officer, which are distributed to the members of the Board of Directors (the "**Directors**") and the Board of Statutory Auditors (the "**Statutory Auditors**"), the Financial Reporting Officer and the Heads of Finance, Administration and Control of the companies controlled by Italmobiliare (the "**Group**"); and (ii) the "Special Section of the Organisation, Management and Control Model", which is distributed to the Company's Directors, Statutory Auditors and all employees.

2. INFORMATION ON THE OWNERSHIP STRUCTURE PURSUANT TO ART. 123-BIS OF THE CONSOLIDATED LAW ON FINANCE (CLF)

a) Share capital structure, indicating the various categories of shares, their rights and obligations, as well as the percentage of share capital that they represent

Italmobiliare's share capital as of December 31, 2025 amounted to 100,166,937 euro, fully subscribed and paid up, divided into 42,500,000 ordinary shares with no par value, each conferring the right to vote at the Company's Ordinary and Extraordinary Shareholders' Meeting.

The shares are listed on the Euronext STAR Milan segment of the Italian Stock Exchange, a regulated market organised and managed by Borsa Italiana S.p.A.

Each share gives a right to one vote. Holders of Italmobiliare shares can vote at the Ordinary and Extraordinary Shareholders' Meeting and exercise the corporate and patrimonial rights as provided by current legislation, subject to the limits laid down in law and the Company's By-laws. The Company does not currently have any savings shares in issue nor any other classes of shares apart from ordinary shares.

There are no stock option plans in place.

b) Restrictions on share transfers

There are no restrictions on share transfers, such as limits on share ownership or clauses involving the acceptance of transfers by the Company or other shareholders.

c) Significant shareholdings according to the communications received under Article 120 of the CLF

The following table lists shareholders (the "**Shareholders**") with shareholdings over 3% of the share capital, according to the communications received by the Company under Article 120 of the CLF.

SIGNIFICANT SHAREHOLDINGS AT 31.12.2025

Shareholder	Number of shares	% of the share capital	% of voting capital
Carlo Pesenti	20,877,509	49.124%	49.623%
<i>(indirectly through Efiarind BV, Efiarind BV & CIE SCPA, Cemital Privital Aureliana S.p.A. and with fiduciary registration to CFN Generale Fiduciaria S.p.A.)</i>	20,419,250	48.045%	48.534%
<i>Directly in a personal capacity</i>	458,259	1.078%	1.089%
Serfis S.p.A.	4,765,000	11.212%	11.326%
Banca Monte dei Paschi di Siena S.p.A. <i>(indirectly through Mediobanca)</i>	2,894,044	6.81%	6.879%
Morgan Stanley	1,654,428	3.893%	3.932%

d) Shares that confer special control rights

No shares conferring special control rights have been issued.

There are no special powers and the By-laws do not foresee shares with multiple or increased voting rights.

e) Employee shareholdings: mechanism for exercising voting rights

There is no system for employees to hold shares in the Company.

f) Restrictions on voting rights

There are no restrictions on the exercise of voting rights.

g) Shareholders' agreements under Article 122 CLF of which the Company is aware

To the Company's knowledge, there are no agreements of any kind regarding the exercise of voting rights assigned to the shares and the transfer of such shares or any of the situations envisaged in Article 122 of the CLF.

h) Change of control clauses and provisions of the By-laws on takeover bids

There are no significant contracts to which the Company or its subsidiaries are parties and which become effective, modified or terminated in the event of a change of control over the Company. Contractual documentation relating to M&A transactions may contain change-of-control clauses.

Some framework contracts on derivatives provide for early termination in the event of extraordinary events that could involve a change of control.

With regard to takeover bids, the By-laws do not derogate from the provisions of the CLF in relation to the passivity rule or application of the neutralisation rules.

i) Mandates to increase the share capital and authorisations to purchase treasury shares

There are no mandates to increase the share capital.

The Shareholders' Meeting of April 17, 2025, under Article 2357 of the Italian Civil Code, authorised the purchase of 1,000,000 of the Company's ordinary shares on one or more occasions for a period of 18 months from the date of the resolution.

At the date of this Report, the Company holds 427,975 treasury shares, representing 1.007% of the share capital; of these, 210,905 were purchased in 2025 under a share buyback programme launched on July 3, 2025 and completed on September 30, 2025, pursuant to the authorisation granted by the previous Shareholders' Meeting. For further details on the share buyback programme, reference is made to the press releases published in accordance with the applicable legislative and regulatory provisions, available in the "Media/Press Releases" section of the Company's website.

The Shareholders' Meeting of April 22, 2026, convened for the approval of the 2025 financial statements, will also be called to resolve on the renewal of the authorisation to purchase treasury shares pursuant to Article 2357 of the Italian Civil Code, subject to revocation of the previous Shareholders' resolution.

j) Management control and coordination

The Board of Directors of the Company, most recently on February 19, 2026, assessed and confirmed that neither Efiarind B.V. (the company at the top of the investment chain of Italmobiliare, where Mr. Carlo Pesenti asserts effective control through dominant influence at the ordinary Shareholders' Meeting) nor any other entity or company in the Italmobiliare investment chain exercises management control and coordination over the Company pursuant to arts. 2497-2497-septies of the Italian Civil Code. In fact:

- a) Italmobiliare does not receive from companies or entities in the investment chain that leads to Efiarind B.V. any instructions, directives or constraints regarding the preparation or approval of business, financial or strategic plans, nor regarding the approval of budgets or the definition of investment or divestment plans, nor regarding the choice of counterparties with which to do business;
- b) Italmobiliare is not a party to any industrial or financial policy or practice performed under the direction or through the coordination of companies or entities of the said investment chain, such as cash pooling, tax consolidation or similar sharing of functions;
- c) there is no evidence of any contractual relationship currently or previously in place between the Company and other companies or entities in its investment chain, nor with other companies or entities subject to control by, or connected to, companies or entities in its investment chain;
- d) there is no evidence of requests for prior approval by companies or entities included in the investment chain of ordinary or extraordinary transactions carried out or seriously considered by the Company;
- e) the Company has not received any policies, regulations or organisational charts from companies or entities in the investment chain;
- f) there are no Executive Directors that are common to the companies or entities in the investment chain and Italmobiliare; there is, incidentally, only one common Non-Executive Director of Italmobiliare, Luca Minoli, who has not been granted any powers in either of the companies in which he is a board member, namely Italmobiliare and Cemital Privital Aureliana S.p.A.

Note that the information required by Article 123-bis, paragraph 1, letter i) on agreements between the Company and the Directors, which provide for compensation in the case of resignation or dismissal without just cause or if their employment relationship is terminated following a takeover bid, is contained in the Report on the remuneration policy and compensation paid published in accordance with Article 123-ter of the CLF.

The information required by Article 123-bis, paragraph 1, letter l) on the amendment of the By-laws as well as the appointment and replacement of directors is provided below, in the paragraph dedicated to the Shareholders' Meeting and in the paragraph dedicated to the Appointment and Replacement of Directors, respectively.

As regards the Company's diversity policies, please refer to the specific paragraph in section VI.

II. Relations with the Shareholders

1. DIALOGUE WITH THE SHAREHOLDERS AND OTHER STAKEHOLDERS

The Company strives to maintain ongoing dialogue with the Shareholders and the market, in accordance with the laws and regulations on the disclosure of inside information. The Company's behaviour and procedures are designed, among other things, to anticipate and avoid information asymmetries and to ensure effective application of the principle whereby all investors and potential investors are entitled to receive the same information in order to make sound investment decisions.

Since 2021, the Company has adopted the "Policy for the management of dialogue with the shareholder base", to govern relations with the shareholders in general, including institutional investors, in order to guarantee systematic dissemination of information that is complete, transparent and timely about the Company's business and pursuit of its mission.

Relations with shareholders and the financial community are maintained by:

- the Chairperson;
- the Chief Executive Officer;
- the Investor Relations Officer, who, on specific topics or for special occasions, is supported by other business functions (principally the Sustainability Department, the Communication Department, the Corporate Affairs Department and the Investment Management Department).

The Policy is consistent with the characteristics of the Company in terms of size and ownership structure. It is available on the Company's website in the "Governance/Documents and Procedures" section.

The Investor Relations Officer (IRO) supervises communication between the Company and its shareholders, including long-standing institutional investors and potential investors interested in entering the Company's capital. The Board of Directors is periodically informed by the IRO about his activities and significant contents of the dialogue with current as well as potential shareholders.

As part of these activities, during 2025 the Investor Relations function held a total of 65 meetings with Italian and foreign institutional investors, both through dedicated meetings and by participating in various conferences reserved for listed companies, such as the *Euronext STAR Conference*, the *Euronext Sustainability Week*, the *Italian Investment Conference*, the *TP ICAP Midcap Conference Paris*, the *Virgilio Equity Conference London* and the *Virgilio Mid & Small Milan*. During these meetings, the topics discussed concerned the progress towards a more concentrated investment portfolio and the performance of the portfolio companies, particularly in relation to the impact of specific factors (such as the price of raw coffee for Caffè Borbone), potential impacts from customs duties, and the slowdown in the growth of discretionary consumption. Looking ahead, attention remains focused on further exits from more mature investments, on the dividend policy, as well as on the opportunity to increase the liquidity of the Company's stock, with a view to normalising its performance, including vis-à-vis Italmobiliare's Net Asset Value per share.

Meetings also included those organised following requests and on the initiative of potentially interested institutional investors and Company shareholders.

On October 9, 2025, Italmobiliare held its first Capital Market Day in Milan, during which the Chairperson and the CEO outlined the path taken and the results achieved over the past seven years, as well as the future portfolio strategy. This was followed by presentations from the CEOs of the main portfolio companies, who illustrated their respective business models, financial performance and development strategies. The event was attended by around 70 participants, including institutional investors and family offices, intermediaries and analysts from Italy and abroad.

In general, stakeholders, according to their specific relevance to Italmobiliare and its portfolio companies, are regularly involved in defining the ESG strategy, particularly in the annual review of the materiality matrix, a shared tool for analysing the strategic levers of the business. The ESG performance of Italmobiliare and its portfolio companies is disseminated through the corporate website, with the possibility for all institutional and non-institutional stakeholders to send questions and requests for further information. Additional details on the dialogue with non-financial stakeholders are included in the sustainability reporting. In light of the recommendation included in the letter from the Chair of the Corporate Governance Committee, the Board has agreed that, during the financial year, it will evaluate the adoption of a policy to govern relations with non-financial stakeholders, the essential elements of which are already included in the Sustainability Policies adopted by Italmobiliare and reported in the sustainability report.

Information of major interest to investors is made available on the Company's website, in the "Investor" section, in addition to official communications. The "Governance" section includes information on Shareholders' Meetings, with particular reference to how to participate and exercise the right to vote, the documentation on items on the agenda, including reports on the matters on the agenda and the lists of candidates for the offices of Director and Statutory Auditor with an indication of their personal and professional characteristics.

2. SHAREHOLDERS' MEETING

The Shareholders' Meeting is the body that expresses the corporate will. It is called, according to the laws and regulations for companies whose shares are listed on regulated markets, to pass resolutions on the matters reserved for it by law. The decisions taken in accordance with the law and the By-laws are binding on all shareholders, including those absent or dissenting, without prejudice to the right of withdrawal in certain situations. The majorities required to amend the By-laws are those established by law.

The Board of Directors recommends to all of its members to participate regularly in the Shareholders' Meetings and seeks to encourage and facilitate the widest possible participation of shareholders and to facilitate the exercise of voting rights.

The Board of Directors reports to the Shareholders' Meeting on its past activities and future plans and acts to ensure that the Shareholders have adequate information to allow them to take the decisions required of the Shareholders' Meeting on an informed basis.

All those who have the right to vote as certified by the legally required communication received by the Company by the end of the third trading day prior to the date set for the Meeting at a single call are entitled to attend the Meeting. The right to attend and vote is retained if the communications are received by the Company after the deadline, as long as they are received before proceedings of the Meeting begin. There are no shares with multiple voting rights, and no voting premium is envisaged.

Shareholders who, individually or jointly, own at least one fortieth of the share capital represented by shares with voting rights can, by the legal deadline, ask for items to be added to the agenda, stating in their request what other issues they have proposed for discussion or what other motions they have suggested on matters already on the agenda. Shareholders may ask questions on items on the agenda prior to the Meeting. The notice of call specifies the deadline for submitting questions.

The Company can designate a person (the so-called Designated Representative), giving a clear indication thereof in the notice of call, for each Meeting to whom all eligible parties may grant a proxy with voting instructions on all or some of the proposals on the agenda, in the manner provided for by law.

A specific regulation governing the Shareholders' Meeting has not been adopted as the extensive powers attributed to the Chairperson by law and doctrine are considered adequate enough to ensure the orderly conduct of the Meetings, also because Article 13 of the By-laws expressly gives the Chairperson the power to direct the debate and establish the order and methods of voting, providing it is open.

Shareholders may ask questions on items on the agenda prior to the Meeting. The notice of call specifies the deadline for submitting questions, which will be addressed no later than during the Meeting.

In 2025, the Shareholders' Meeting was held in person on April 17 to deliberate on the following agenda:

1. Financial statements for the year ended December 31, 2024.
2. Allocation of the profit for the year and dividend distribution.
3. Report on the remuneration policy and on the compensation paid pursuant to Article 123-ter of the Consolidated Law on Finance: remuneration policy for 2025.
4. Report on the remuneration policy and on the compensation paid pursuant to Article 123-ter of the Consolidated Law on Finance: consultation on the compensation paid in 2024.
5. Authorisation to buy and sell treasury shares, subject to revocation of the authorisation given by the Ordinary Meeting held on April 23, 2024.

Ten out of twelve Directors and the entire Board of Statutory Auditors were present.

III. Board of Directors

1. ROLE AND DUTIES

The Board of Directors has the task of defining the strategic guidelines of the Company and the Group and is responsible for managing them. It is entrusted with all powers of ordinary and extraordinary administration of the Company, as all matters not expressly reserved for the Shareholders' Meeting by law and the By-laws fall under its remit.

In consideration of Italmobiliare's role as the holding company of the Group's equity investments, the Board of Directors pursues the Group's sustainable success through the flow of investments and disposals and the ongoing management of the equity investments in the portfolio. In particular, it evaluates and approves all potential investments based on: i) the Company's mission; ii) the strategic guidelines approved by the Board during the

annual budget review; *iii*) the Code of Ethics, Sustainability Policies and Responsible Investment Policy; *iv*) the additional ESG commitments adopted in line with the Group's strategic response to global challenges.

At each meeting of the Board of Directors, a specific point on the agenda is dedicated to an in-depth analysis of ESG issues, progress on the annual ESG Plan and the activities of the Committee for Sustainability and Social Responsibility. A similar practice has been adopted by the Board of Directors of each portfolio company. The sustainability profiles are also taken into consideration for remuneration purposes: part of the short-term variable remuneration (MBO) of the Company's top management is in fact linked to the achievement of predetermined ESG objectives under the ESG plan (depending on the degree to which the plan has been implemented). Furthermore, the existing long-term incentive plan, granted to the top management in 2023 (as well as the plan proposed for adoption at the upcoming Shareholders' Meeting for the 2026-2028 three-year period), provides for the performance indicators to include, in addition to Net Asset Value, an ESG objective, with a relative weight of 20% for determining the bonus. For more detailed information, reference should be made to the Report on the Remuneration Policy and Compensation Paid, drawn up pursuant to Article 123-ter of the CLF, as well as to the information document on the new incentive plan made available in view of the Shareholders' Meeting to approve the 2025 financial statements.

In addition to the powers bestowed on it by law and the By-laws, resolutions on the following matters are referred to the Board of Directors, without prejudice to the sphere of competence of the Shareholders' Meeting: the merger by incorporation of companies that are wholly owned or at least 90% owned; the transfer of the registered office, provided it remains in Italy; the opening or closure of branches, whether in Italy or abroad; reductions of share capital in the event of a shareholder's withdrawal; and amendments to the By-laws to comply with mandatory provisions.

The Board of Directors is entrusted with the examination and approval of the Company's strategic objectives, and with the regular oversight of their execution.

Strategic investment guidelines are typically reviewed and approved by the Board every three years. The Board is regularly updated on the implementation of these guidelines during the annual budget approval process and subsequent reviews of performance.

Furthermore, during the examination and approval of the interim financial statements, in light of the information received from the delegated bodies, the Board assesses the overall operating performance, comparing the actual results with the budget for the year.

The Board of Directors is responsible, among other things, for *i*) assessing the overall results of operations; *ii*) assessing the adequacy of the organisational, administrative and accounting structure with particular reference to the Internal Control and Risk Management System, supervised by the Chief Executive Officer, *iii*) defining the Company's corporate governance system; *iv*) assigning powers to Executive Directors, as well as *v*) defining the remuneration policy and setting the remuneration of Directors vested with special powers. The Board of Directors resolves on those transactions of the Company and its subsidiaries that may have strategic, economic or financial importance for Italmobiliare, such as acquisitions or disposals that would significantly change the size of the Group or financial operations that would significantly change the overall level of Group borrowing; the Board also resolves on related-party transactions, according to the terms and conditions of the specific procedure adopted by the Company and the procedures laid down in it.

On the basis of information received during the year and the reports provided in 2025 by the Chief Executive Officer and the Control and Risk Committee, the Board of Directors acknowledged that the Company's organisational, administrative and accounting structure was overall adequate, particularly the internal control and risk management system.

The Shareholders' Meeting has not authorised any derogation from the ban on competition pursuant to Article 2390 of the Italian Civil Code nor is one provided for in the By-laws. Moreover, no Director is a shareholder with unlimited liability in a competitor company, nor do they run a competitor business for themselves or on behalf of third parties, or serve as director or general manager in competitor companies.

2. PROCEDURES AND DOCUMENTATION

In order to regulate the functioning of the Board of Directors and its internal Board Committees – with the exception of the Committee for Transactions with Related Parties which is governed by a specific procedure – as well as the management of supporting information, the Board of Directors Regulation was adopted in 2021.

The Regulation, which is available on the Company's website in the Governance/Documents and Procedures section, is applied alongside the legal, regulatory and by-law provisions, as well as the recommendations of the Corporate Governance Code. The document summarises the functions and powers of the Board of Directors and the duties of the Board Committees; it lays down the rules governing the information provided to directors and the procedures for taking minutes of Board and Committee meetings; it identifies the prerogatives of the Chairperson, who ensures that Board proceedings function as they should and coordinates the activities of the Committees with those of the Board.

The annual calendar of corporate meetings is set in advance of the reference financial year. The notice of call of the Board meeting is normally sent out at least five days prior to the date of the meeting.

The Chairperson ensures that the documentation related to the agenda items for Board meetings is made available to Directors and Statutory Auditors, through dedicated software, with sufficient advance notice, typically two days prior to the meeting date, except in urgent cases where the documentation is made available as soon as possible. Where deemed appropriate in relation to the nature of the topic and the related resolution, the documentation can be made available with less notice or provided directly at the meeting. All necessary insights are provided to enable the Board to deliberate in an informed and knowledgeable manner.

The minimum notice for the distribution of documentation was consistently observed during 2025 for the matters submitted to the Board for approval. In the few cases when the supporting documentation (presentation of the interim results of the portfolio companies) was made available with a shorter deadline, all clarifications and insights were made during the meeting, also in the presence of the managers concerned, to allow the Board to decide on an informed basis. The period of notice has never been waived merely for reasons of confidentiality. On certain occasions, documents providing additional information have been made available to the Board shortly before the meeting, as well as draft press releases to be disseminated following the meeting. The Chairperson ensured that the requested in-depth analyses were provided at each meeting, also following the activities of the Committees. At the meeting on February 19, 2026, the Board of Directors carried out its usual evaluation of the pre-meeting documentation, which was deemed complete and adequate. The self-assessment process highlighted appreciation for the information documents prepared for the Board of Directors.

The Board of Directors, on the proposal of the Chairperson, appoints the Secretary who, under the supervision of the Chairperson, prepares the minutes of the meetings. The minutes provide a true and fair summary of the Board proceedings and the decisions made. They may refer to more detailed information contained in the supporting documentation. They are normally approved at the next Board meeting.

The same provisions regarding the disclosure and minutes of meetings envisaged for the Board of Directors are valid for Board Committees as well, where applicable.

The Secretary helps ensure that the Chairperson's duties are properly carried out and assists the Directors in key aspects to ensure that the Board and its Committees function properly. The Directors can access the corporate functions to request information or clarifications, normally after informing the Chairperson and/or the Chief Executive Officer.

The Board of Directors meets regularly (at least quarterly) to approve the annual and half-year financial reports and the quarterly figures included in the additional periodic reports. On this occasion, the CEO reports back on the activities carried out in exercising the powers granted to him. In any case, pursuant to the By-laws, the Board of Directors meets every time it is considered necessary by the Chairperson, or the Deputy Chairperson, or when it is requested by at least three Directors, or at the request of any of the Statutory Auditors after giving notice to the Chairperson of the Company.

In 2025, the Board of Directors held 7 meetings, each lasting approximately two hours on average, with the Board of Statutory Auditors always in attendance; the attendance records of individual Directors and Statutory Auditors are shown in a table at the end of this Report. As can be seen from the attendance at Board and Committee meetings, the Directors ensured that adequate time was available for the performance of their duties.

During the year, all Board meetings were attended by the Financial Reporting Officer, the Chief of Staff and the Head of Corporate Affairs, who performs the functions of the Board's secretary. On the Chairperson's initiative, the Heads of Investment Management, Investor Relations, Internal Audit, Investments & Development, Finance, Human Resources, Legal Affairs, and Sustainability also attended for matters concerning their sphere of competence to provide adequate information to the Board.

In December 2025, the Company issued a calendar of corporate events for 2026, which is available on the Company's website (www.italmobiliare.it). The Board of Directors has met three times in 2026 as of the date of approval of this Report.

The Board of Directors and the Board of Statutory Auditors were promptly informed of the recommendations set out in a letter from the Chairperson of the Corporate Governance Committee dated December 18, 2025. The recommendations were discussed by the Remuneration and Nominations Committee in its meeting on January 27, 2026, and in the Board of Directors' meeting on February 19, 2026.

3. APPOINTMENT AND REPLACEMENT OF DIRECTORS

The mechanism for the appointment of Directors, as provided for under the By-laws currently in force, is described below. In this regard, it should be recalled that the Board of Directors has resolved to submit to the next Shareholders' Meeting, convened for April 22, 2026 in extraordinary session, certain amendments to the By-laws aimed, inter alia, at enabling the adoption of the so-called one-tier administration and control system pursuant to Articles 2409-sexiesdecies et seq. of the Italian Civil Code. Should the one-tier governance system be approved by the Meeting, it will apply to the renewal of the corporate bodies by that same Meeting. Reference is therefore made to the Directors' Report to the extraordinary session of the Shareholders' Meeting and, in particular, to the wording of the new Articles 16 and 17 of the By-laws proposed for adoption, with regard to the procedures for the appointment and replacement of directors should the one-tier system be adopted.

Directors are appointed by the Shareholders' Meeting on the basis of lists submitted by the Shareholders. The lists must be filed at the Company's registered office at least 25 days prior to the date set for the Shareholders' Meeting at a single calling; this is mentioned in the notice of call along with the procedures and shareholding required for their submission.

Only shareholders who, alone or with others, have a shareholding with voting rights not lower than the level set by Consob pursuant to current regulations are entitled to present lists. No shareholder can file or participate in the filing of more than one list, directly or through a nominee or trust company, or vote for different lists. Shareholders belonging to the same group and shareholders who join a shareholders' agreement involving the Company's shares may not file or vote for more than one list, not even through a nominee or trust companies. Lists filed in violation of these restrictions will not be accepted. Each candidate can only be on one list under penalty of ineligibility.

Lists that have a total number of candidates equal to or greater than three must be composed of candidates belonging to both genders, in compliance with current regulations on gender balance.

At the time they are filed, lists must include:

- a. statements whereby each candidate accepts their candidacy and declares, under their own responsibility, that there are no grounds for ineligibility, that they comply with the integrity requirements established by law, and whether or not they meet the independence requirements of the law and the Code;
- b. a brief curriculum vitae on the personal and professional skills of each candidate with an indication of positions they hold as director or statutory auditor in other companies;
- c. information on the identity of the shareholders who have presented lists. The certification or statement proving ownership of the shareholding required by law at the time of filing may also be produced after the submission of the list, provided that it reaches the Company before the deadline set by current regulations for the publication of lists by the Company;
- d. a statement by shareholders – other than those who hold a controlling or majority interest, jointly or severally – acknowledging that they do not have any links/relationships as defined by law.

The By-laws do not set additional integrity and independence requirements beyond those laid down for Statutory Auditors in the CLF. Any elected Director who, during their term of office, no longer complies with the integrity requirements of law or the By-laws falls from office. Specific integrity, propriety, and professional experience requirements are instead mandated by law for corporate officers of entities, such as Italmobiliare, holding significant shareholdings in financial and insurance sector companies.

A number of Directors that is not less than the minimum required by law must meet the independence requirements laid down in current legislation.

If a list does not comply with these provisions, it will be considered as though not presented.

At least 21 days prior to the date set for the Shareholders' Meeting convened to resolve on the appointment of the management bodies, the Company makes the lists of candidates filed by shareholders and the supporting documentation available to the public at the registered office, the company that runs the stock market and on its own website.

In the event of more than one list being filed:

- a. all the Directors on the list that obtains the highest number of votes at the Meeting are elected in the order in which they are listed, except for the minimum number reserved by law for the minority shareholders' list;
- b. the minimum number of Directors reserved by law for the minority shareholders are elected from the minority shareholders' list that obtains the highest number of votes and is not connected in any way, directly or indirectly, with the majority shareholders;
- c. should more than one list obtain the same number of votes, a run-off is held among these lists by all the shareholders entitled to vote present at the Meeting, and the candidates are elected from the list that obtains a relative majority of the share capital represented at the Meeting.

For the purposes of allocating the Directors to be elected, the lists that have not achieved a percentage of votes at least equal to half of the percentage required for the submission of lists will not be considered.

Should a party connected to a majority shareholder vote for a list submitted by minority shareholders, such connection is considered significant for the purpose of excluding the minority shareholders' elected Director only if this vote proved decisive for the election of the Director concerned.

Should a single list be filed, all the candidates included in that list are elected with a simple majority vote of the share capital represented at the Meeting.

If, as a result of the voting based on lists or the voting on the only list presented, the composition of the Board of Directors does not comply with the current regulations on gender balance, the necessary replacements shall be made within the list that obtained the highest number of votes, or within the only list submitted, starting from the candidate listed last on the list concerned. Subsequently, if compliance with the gender balance requirement is not ensured in the minimum number required by law, there will be similar replacements, again within the list that obtained the highest number of votes, or within the only list submitted.

In the absence of lists, and whenever by means of the list voting mechanism, the number of candidates elected is lower than the minimum number envisaged in the By-laws for its composition, the Board of Directors is respectively appointed or supplemented by the shareholders at their meeting with the legal majority, provided that the gender balance required by current legislation is ensured and at least the minimum number of Directors meeting the legal independence requirement is ensured.

If, during the year, one or more Directors should cease to hold office due to resignation or any other reason, the others shall make provision to replace them with a resolution approved by the Board of Statutory Auditors, providing the Directors appointed by the Shareholders' Meeting continue to constitute the majority. Directors are replaced, in compliance with the above requirements of integrity and independence, with the appointment of unelected candidates belonging to the same list as the Directors who no longer serve, following the original order of presentation. If this is not possible, the Board of Directors will act according to the law. All this, in any case, in compliance with current regulations on gender balance. Directors appointed in this manner hold office until the following Shareholders' Meeting.

The Shareholders' Meeting decides about the replacement of Directors in accordance with the above principles, by a simple majority of the share capital represented at the Meeting. The term of office of Directors appointed this way will end at the same time as that of the Directors already in office at the time of their appointment.

No limits are set on the re-electability of Directors even if having held the same office for more than nine years in the last twelve years could represent a non-peremptory reason for exclusion from the independence requirement under the Code.

In view of the renewal of the corporate bodies, the Board of Directors, assisted by the Remuneration and Nominations Committee, expressed its opinion on the quantitative and qualitative composition of the Board. The opinion was published in advance of the deadline for the call of the Shareholders' Meeting and is available in the "Governance/Shareholders' Meeting" section of the Company's website.

4. COMPOSITION

The By-laws currently in force provide that the Company is managed by a Board of Directors comprising between five and fifteen members, who remain in office for the period established at the time of appointment, in any case not exceeding three financial years, and cease to hold office on the date of the Shareholders' Meeting called to approve the financial statements relating to the last year of their term of office; they may be re-elected.

The Board of Directors currently in office, appointed by the Shareholders' Meeting on April 27, 2023 up until approval of the financial statements at December 31, 2025, is made up of twelve directors.

Eleven Directors are members of the majority list that was presented by CFN Generale Fiduciaria S.p.A.: Laura Zanetti, Carlo Pesenti, Livio Strazzera, Giorgio Bonomi, Mirja Cartia d'Asero, Valentina Casella, Elsa Fornero, Luca Minoli, Chiara Palmieri, Roberto Pesenti and Pietro Ruffini. One Director, Marco Cipelletti, is an expression of the minority list presented by a group of shareholders consisting of institutional investors.

The minimum shareholding required by CONSOB to submit a list was 1%. The lists and supporting documentation, filed and published by the deadlines laid down by law, are available on the website www.italmobiliare.it in the section entitled "Governance/Shareholders' Meeting/Shareholders' Meeting archive".

The curriculum vitae of each current Director – demonstrating adequate professional experience and skills for the tasks assigned to them – is available in the "Governance/Board of Directors" section of the website www.italmobiliare.it and quoted in the introduction to the Annual Financial Report. The offices held by them in other listed companies or companies of significant size are indicated later in this Report.

Furthermore, the Board of Directors ensured that the directors met the specific integrity, propriety, and professional experience requirements mandated by law for corporate officers of entities, such as Italmobiliare, holding significant shareholdings in financial and insurance companies.

In compliance with the provisions on gender quotas, 40% of the positions are reserved for the under-represented gender. The Board of Directors' composition reflects a suitable blend of professional experience, skills, gender, and age, adhering to the criteria outlined in the guidance opinion concerning the quantitative and qualitative composition of the Board of Directors, issued prior to the call of the Shareholders' Meeting for the appointment of the Board. As of the approval date of this Report, the average age of the Directors stands at 56. In terms of tenure, the average is 13 years.

As regards the composition of the Board of Directors in the event that the one-tier system is adopted, reference is made to the directors' report to the Extraordinary Meeting and, in particular, to the wording of the new Article 15 of the By-laws proposed for adoption.

Below is a list of the Board of Directors' members as of the approval date of this Report, indicating their respective positions and Committee affiliations.

Laura Zanetti*	Chairperson, Member of the Committee for Sustainability and Social Responsibility
Livio Strazzera*	Deputy Chairperson
Carlo Pesenti	Chief Executive Officer, Chairperson of the Committee for Sustainability and Social Responsibility.
Giorgio Bonomi	Member of the Control and Risk Committee
Mirja Cartia d'Asero**	Chairperson of the Control and Risk Committee, Member of the Committee for Transactions with Related Parties and of the Committee for Sustainability and Social Responsibility
Valentina Casella**	Chairperson of the Committee for Transactions with Related Parties, Member of the Remuneration and Nominations Committee
Marco Cipelletti**	Member of the Remuneration and Nominations Committee
Elsa Fornero**	Member of the Committee for Transactions with Related Parties and of the Committee for Sustainability and Social Responsibility
Luca Minoli	
Chiara Palmieri**	Chairperson of the Remuneration and Nominations Committee, Member of the Control and Risk Committee
Roberto Pesenti	
Pietro Ruffini**	Member of the Committee for Sustainability and Social Responsibility

* Director who meets the independence requirements pursuant to the CLF.

** Director who meets the independence requirements pursuant to the CLF and the Corporate Governance Code.

5. LIMITS ON THE ACCUMULATION OF APPOINTMENTS AND OFFICES OF DIRECTORS

The Board of Directors recently reconfirmed, with a resolution passed on April 27, 2023, that the maximum number of offices that may be held in listed companies on regulated markets, in Italy or abroad, was four, including the office held in Italmobiliare S.p.A., but excluding other companies in the Italmobiliare Group, which are deemed compatible with being an effective director of Italmobiliare. All of the Directors and Statutory Auditors comply with this limit.

The offices of Director or Statutory Auditor held by each Director in other listed and/or large companies are shown below:

Laura Zanetti	Allianz Bank Financial Advisors S.p.A. Webuild S.p.A. (listed) Edizione S.p.A.	Director Director Director
Livio Strazzera	Serfis S.p.A. Bormioli Luigi S.p.A.	Sole Director Director
Carlo Pesenti	Caffè Borbone S.r.l. Tecnica Group S.p.A.	Deputy Chairperson Director
Mirja Cartia d'Asero	Tecma Solutions S.p.A. (listed)	Director
Valentina Casella	Riso Gallo S.p.A. Banco di Desio and Brianza S.p.A. (listed) Maire S.p.A. (listed)	Director Director Director
Luca Minoli	Cemital Privital Aureliana S.p.A.	Chairperson
Chiara Palmieri	Guala Closures S.p.A. La Doria S.p.A.	Director Director
Pietro Ruffini	Double R S.r.l. OuR Group S.r.l. Ruffini Partecipazioni Holding S.r.l. Industries S.p.A.	Director CEO CEO Director

6. EXECUTIVE DIRECTORS

Of the twelve directors in office, Carlo Pesenti, Chief Executive Officer, and Roberto Pesenti, who in 2025 was appointed Head of Strategic Development at Italmobiliare, qualify as executive directors.

7. CHAIRPERSON AND CHIEF EXECUTIVE OFFICER

Within the scope of the Board of Directors, the following powers have been granted.

The following duties have been assigned to the **Chairperson**, Ms Laura Zanetti: to submit proposals for decision by the Board of Directors; to supervise and ensure compliance with the principles of Corporate Governance approved by the Company and propose any amendment to them to be submitted to the Board of Directors for approval; to supervise the regularity of meetings and actions of the corporate bodies ensuring that the documentation relating to the agenda items is made available to Directors and Statutory Auditors with adequate notice; to supervise the work of the Chief Operating Officer with reference to real estate management transactions; to promote the Company's reputation; in agreement with and in coordination with the Chief Executive Officer, to maintain relations with the economic-financial community, institutional bodies and authorities.

The Chairperson may: represent the Company in court proceedings; represent the Company before any administrative authority or public body, as well as before local industrial or trade associations; represent the Company as a shareholder at the Ordinary and Extraordinary Meetings of other companies; appoint consultants as necessary; appoint special or general attorneys; negotiate and execute any transaction or contract regarding real estate purchase or sale, exchange and division, as well as the establishment of easements or property rights in general, up to 25 million euro, subject to joint signature together with the Chief Executive Officer.

The Chairperson is not granted managerial powers.

As **Chief Executive Officer**, Carlo Pesenti has been assigned the following tasks, among others, in addition to the general power of representation of the Company: to submit proposals for decision by the Board of Directors; to oversee the execution and implementation of the investment plans defined by the Board of Directors; to oversee management policies, corporate development strategies of Italmobiliare S.p.A. and its subsidiaries, held directly or indirectly; to oversee and direct the activities of Italmobiliare S.p.A. and its direct or indirect subsidiaries; to support the definition of guidelines for managing the companies in which Italmobiliare S.p.A., directly or indirectly, holds an equity investment that allows it to exercise significant influence; to oversee corporate organisation and propose important amendments to the Board of Directors.

To carry out the above-mentioned tasks, the Chief Executive Officer can perform any appropriate initiative and, by way of example: as part of the Company's general policies on accounting reporting (i) to prepare the separate and consolidated draft financial statements (along with the necessary reports and the accompanying notes) to be submitted to the Board of Directors for approval and (ii) to prepare the half-yearly and quarterly financial statements required by current regulations; to prepare Italmobiliare S.p.A.'s budgets and long-term development and investment plans to be submitted to the Board of Directors for approval; to define the general guidelines for the financial management of the Company and the Group; to determine the guidelines relating to the choice of the main managers of Italmobiliare S.p.A., excluding the Chief Operating Officer, whose appointment falls under the competence of the Board of Directors, and of the main companies directly or indirectly controlled, as well as, for Italmobiliare S.p.A. only, to personnel management.

The same person has been assigned the powers to carry out managerial, developmental, and decision-making activities. The powers granted for the office of Chief Executive Officer may be exercised up to a maximum amount of 25 million euro, except for transactions on derivatives and the provision of guarantees in general (in the interest of the Company or its subsidiaries), which can be made up to a maximum amount of 50 million euro, transactions to sell securities of listed companies, which may be carried out up to a maximum amount of 100 million euro per single trading day, and real estate transactions, which may be carried out up to 10 million euro and, if exceeding that amount, up to 25 million euro, require the joint signature of the Chairperson.

At its meeting on December 17, 2024, the Board of Directors granted a new dual mandate to Carlo Pesenti, integrating the powers delegated in April 2023. The Board assigned him the mandate to: i) supervise and oversee the operations of Italmobiliare and its directly and indirectly controlled companies to ensure full ESG integration at all stages of investments, promoting value creation founded on sustainable economic growth that respects human and labour rights; ii) evaluate and explore initiatives to promote the international expansion of Italmobiliare and its directly and indirectly controlled companies.

Until December 31, 2024, Carlo Pesenti also served as the Company's Chief Operating Officer.

As from January 1, 2025, the responsibilities relating to that role were largely assigned to Mauro Torri, Head of Administration and Control, who exercises them within a commitment limit of 20 million euro for the Company.

The Chief Executive Officer qualifies as the main person responsible for the Company's management. He reports back to the Board every time it meets on the activities carried out in the exercise of the powers.

The Chief Executive Officer is not a Director in any other listed company at which a Company Director is the Chief Executive Officer.

To manage current operations, additional powers have been granted to Company managers, within the scope of their respective remits.

8. SUCCESSION PLANS

The Board of Directors has assigned the Remuneration and Nominations Committee the task of drawing up succession plans for Executive Directors, which the Board of Directors has to decide whether to adopt.

Considering the nature of Italmobiliare as a Holding Company and its organisational structure, which has been kept flexible over the years, on the Committee's recommendation, having reviewed the situation most recently in 2023, the Board of Directors did not adopt a formal succession plan for the CEO and key management personnel. The Board of Directors has ascertained that, in the event of an extraordinary situation, adequate safeguards are in place, including an Emergency Plan, to ensure that the Company will continue to be managed, while starting the selection of a new management team.

9. INDEPENDENT DIRECTORS

Following its appointment in April 2023, the Board of Directors assessed the independence of its members based on the provisions of the CLF and the criteria laid down in the Corporate Governance Code. The results of the assessments were disclosed to the market following the Shareholders' Meeting held to appoint the Board on April 27, 2023.

The Board of Directors recently verified the continued fulfilment of the requirements, based on the information received from each Director, at the meeting held on February 19, 2026. The Board of Statutory Auditors has checked correct application of the criteria and the procedures adopted by the Board of Directors to assess its members' independence.

In this connection, note that the amount above which a Director cannot qualify as independent pursuant to letter c) of recommendation 7 of the Code has been set at 200,000 euro per year and the additional amount above which a Director cannot qualify as independent pursuant to letter d) of recommendation 7 of the Code has also been set at 200,000 euro per year.

Given the rigorous application of the quantitative criteria and, in general, of the parameters indicated in the Code, which up to now have not highlighted any uncertainties, the Board did not consider it necessary to introduce qualitative criteria for assessing whether the independence requirements were still being met in accordance with letters c) and d) of recommendation 7 of the Code.

As a result of these assessments, half of the Directors qualify as Independent under the provisions of the CLF and the criteria laid down in the Code: Mirja Cartia d'Asero, Valentina Casella, Marco Cipelletti, Elsa Fornero, Chiara Palmieri, and Pietro Ruffini.

The six Directors who qualified as independent according to both the Code and the CLF met once during 2025 in the absence of the other Directors.

The Chairperson Laura Zanetti and Deputy Chairperson Livio Strazzera are Independent Directors only according to the CLF.

10. LEAD INDEPENDENT DIRECTOR

At the time of renewal, at the meeting on April 27, 2023, the Board of Directors resolved not to appoint a "Lead Independent Director" for the 2023-2025 term of office. The conditions envisaged by the Code were not met and the Independent Directors did not ask for one to be appointed.

11. SELF-ASSESSMENT

In accordance with the provisions of the Board Regulation, the Directors are required to conduct an annual assessment of the composition, role and functioning of the Board and of its Committees. The Board of Statutory Auditors also participates in the self-assessment process.

The Chairperson supervises and coordinates the process, with the support of the Remuneration and Nominations Committee and the Corporate Affairs Department. The Chairperson ensures its adequacy and transparency, considering together with the Committee whether they need assistance from an independent consultant.

At the end of the 2025 financial year, an internally prepared questionnaire was distributed to all Directors and Statutory Auditors, previously shared with the Chairperson of the Board of Directors and the Remuneration and Nominations Committee, who did not consider it necessary to involve an external consultant. The questionnaire concerns the overall assessment of the functioning and composition of the Board of Directors and the individual Committees and contemplates the possibility of making recommendations or comments. Each recipient was asked to provide their assessment based on a scale of values ranging from 1 to 6.

The questionnaire was returned anonymously by fourteen of the fifteen persons consulted. The CEO, as in the past, did not take part in the process.

Before it was distributed, the questionnaire and the results of the self-assessment were first reviewed by the Remuneration and Nominations Committee and then by the Board of Directors.

Overall, the opinions expressed by the Directors and Statutory Auditors confirmed their appreciation of the procedural and operational aspects, particularly the role of the Chairperson and their relations with the other Directors, the information provided to the Board, the thorough presentation of the items on the agenda by the

managers invited to attend, and the effectiveness of the information flows between the Board of Directors, the Board of Statutory Auditors, the Committees, and the external auditors.

12. INDUCTION PROGRAMME

With the help of the various company departments, the Chairperson works to ensure that the Directors and Statutory Auditors participate in initiatives designed to enhance their knowledge of the Company's situation and dynamics and are informed about the main legislative and regulatory changes that concern the Company and its corporate bodies.

During 2025, two induction sessions were held: one dedicated to macroeconomic scenarios and Italmobiliare's strategies, and one dedicated to the subsidiary Italgas, at whose headquarters in Villa di Serio (Bergamo) the session took place.

13. INTERNAL COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors has set up a Remuneration and Nominations Committee, a Control and Risk Committee, a Committee for Sustainability and Social Responsibility, all with advisory and propositional functions towards the Board of Directors, as well as a Committee for Transactions with Related Parties in accordance with Consob's RPT Regulation. The responsibilities and functions of the first three Committees are defined in the Regulation governing the Board of Directors of Italmobiliare. The responsibilities of the Committee for Transactions with Related Parties, on the other hand, are included in a specific procedure.

The Committees, in carrying out their functions, are entitled to access the corporate information and functions necessary to perform their duties. They can also use external consultants at the Company's expense. At the invitation of the Chairperson of each Committee, meetings may also be attended by non-members, including managers of the Company or of associate companies and external consultants.

Each Committee appoints a Secretary, who need not be a member. The Secretary's main task is to draw up minutes of the meetings. The Chairperson of each Committee reports back to the Board of Directors at the next Board meeting.

Detailed information on the Remuneration and Nominations Committee, the Control and Risk Committee and the Committee for Sustainability and Social Responsibility is provided below, while details of the Committee for Transactions with Related Parties are provided in the section entitled "Codes of conduct, procedures and other corporate governance practices."

With regard to the provision of supporting documentation, the same deadlines established for the Board of Directors apply to the Committees.

14. REMUNERATION AND NOMINATIONS COMMITTEE

The Remuneration and Nominations Committee is made up of Chiara Palmieri, Chairperson, Valentina Casella and Marco Cipelletti, all Independent Directors meeting the requirements laid down in the Code and the CLF.

The members have suitable experience in accounting, finance and remuneration matters, as assessed by the Board at the time of appointment and disclosed to the market accordingly.

The Board of Statutory Auditors and the Head of Human Resources are regularly invited to attend Committee meetings. No Director is present at the meeting when their remuneration is discussed. The Chairperson and the Chief Executive Officer are informed about the Company representatives or consultants invited to attend the Committee meetings.

The Committee has regular access to the Company's information and departments necessary to perform its tasks; it has an annual budget of 50,000 euro allocated by the Board of Directors. The Committee can seek assistance from independent consultants.

The Committee's responsibilities and procedures are set out in the Regulation governing the Board of Directors.

In its role as the Remuneration Committee, it performs the following functions, among others:

- a) makes proposals to the Board about remuneration policy;
- b) periodically evaluates the adequacy and overall consistency of the remuneration policy, monitoring its practical application;

- c) submits proposals to the Board of Directors, or provides opinions, on the remuneration of the Executive Directors and other Directors vested with special powers, as well as on the setting of performance objectives;
- d) evaluates proposed short- and long-term incentive schemes, both cash- and share-based, prior to their submission to the Board of Directors for approval;
- e) proposes performance objectives to the Board, linked to the variable component of remuneration of Executive Directors, Directors vested with special powers and key management personnel;
- f) verifies whether the performance objectives linked to the long-term incentive plans and variable remuneration have been met, partly using information received from the relevant business functions;
- g) provides opinions on the determination of indemnities payable upon early termination of employment relationships with key management personnel; assesses the possible effects of termination on rights assigned under financial instrument-based incentive plans.

The Remuneration and Nominations Committee also:

- h) helps the Board in conducting the self-assessment process of the Board and its Committees;
- i) provides opinions on the size and composition of the Board and the Committees;
- j) without prejudice to the provisions of the By-laws, proposes candidates for co-option to the Board, if necessary;
- k) conducts analyses for the preparation and revision of succession plans for top management roles that the Board of Directors has decided to adopt;
- l) performs any additional tasks assigned by the Board of Directors.

In 2025, the Committee met four times with the Board of Statutory Auditors in attendance; each meeting lasted slightly less than one hour on average. In two of the four meetings, it also performed the functions of the Nominations Committee.

All supporting documentation was made available at least two days in advance.

Meetings are regularly minuted by the Committee Secretary.

The Committee availed itself of the independent adviser Willis Towers Watson, among other things, to assist in the preparation of the remuneration policy for 2025 and 2026, as well as in defining the new long-term incentive plan for the 2026-2028 period to be submitted to the Shareholders' Meeting.

During 2025, the Committee carried out the following activities concerning remuneration matters:

- it examined the Company's Report on the Remuneration Policy in 2025 and Compensation Paid in 2024 to be submitted to the Board of Directors and subsequently to the Shareholders' Meeting;
- it verified the achievement of the performance objectives in order to determine the short-term variable remuneration payable to the Chief Executive Officer/Chief Operating Officer and key management personnel (2024 MBO);
- it submitted to the Board of Directors a proposal regarding the variable remuneration of the Chief Executive Officer and key management personnel for 2025 (2025 MBO);
- it submitted to the Board of Directors the proposals for the remuneration pursuant to Article 2389 to be granted to the Chief Executive Officer until the Shareholders' Meeting called to approve the financial statements at December 31, 2025;
- it was updated on the new provisions introduced by the Pay Transparency Directive.

As regards the functions of the Nominations Committee, in 2025 it: preliminarily reviewed the results of the 2024 self-assessment process, which were then submitted to the Board of Directors; examined the questionnaire to be used for the 2025 self-assessment process, after agreeing not to engage an independent consultant.

In 2026, up to the date of approval of the Report, the Committee met three times, also performing the functions of the Nominations Committee. Among its activities involving remuneration matters, it examined the Company's Report on the Remuneration Policy in 2026 and Compensation Paid in 2025, to be submitted to the Board of Directors and subsequently to the Shareholders' Meeting; it verified the achievement of the performance objectives in order to determine the short- and long-term variable remuneration to be granted to the Chief Executive Officer and to key management personnel (2025 MBO and the Italmobiliare 2023-2025 Phantom Stock Grant Plan); furthermore, following a liquidity event, it verified that the conditions for the allocation of the Value Creation Sharing Incentive were met and submitted to the Board of Directors its proposal for the payment of the incentive to the beneficiaries; it shared the structure of the 2026 MBO for key management personnel; it examined the structure and the information document relating to the new long-term incentive plan (Italmobiliare 2026-2028 Phantom Stock Grant Plan); and, in view of the expiry of the mandate of the administrative body, it examined a benchmark analysis – subsequently submitted to the Board of Directors – on directors' remuneration, also for the purpose of preparing a proposal for the Shareholders' Meeting; finally, in a joint session also with the Committee for Transactions with Related Parties, it examined the payment of an end-of-term indemnity in favour of the Chairperson, deeming that the conditions existed to grant a derogation from the Remuneration Policy adopted by the Company for 2025. Please refer to the Report on the Remuneration Policy in 2026 and Compensation Paid in 2025 for any further relevant information.

In its capacity as Nominations Committee, it examined the results of the 2025 self-assessment, subsequently submitted to the Board of Directors, and defined the orientation opinion on the qualitative and quantitative composition of the newly appointed Board of Directors, which was later approved by the Board and published prior to the call of the Shareholders' Meeting.

The Committee also reviewed the remuneration-related recommendations contained in the letter from the Chairperson of the Corporate Governance Committee dated December 18, 2025.

Also in light of the Committee's considerations and taking into account the specific characteristics of Italmobiliare as an investment holding company, the Board of Directors agreed to retain in the 2026 remuneration policy the provision concerning the possibility of granting discretionary bonuses, that may be awarded occasionally to reward specific, predetermined performance or result dimensions without setting a maximum limit with precise objective references consistent with market practices. The Board considered that such forms of remuneration – which have, moreover, been used only to a very limited extent – allow for flexibility in the management of the organisation, serving retention purposes and rewarding, in line with market benchmarks, those who have created value in well-defined situations that differ from those covered by the variable components of remuneration and the Value Creation Sharing Incentive. As regards end-of-office indemnities, the Board considered that the policy already provides adequate reference parameters for their determination.

For further information on the duties of the Remuneration and Nominations Committee and, more generally, on the remuneration policy for 2025, approved by the Board of Directors on the Committee's proposal, please refer to the remuneration report prepared in accordance with Article 123-ter of the CLF.

15. COMMITTEE FOR SUSTAINABILITY AND SOCIAL RESPONSIBILITY

The Board of Directors appointed the members of the Committee for Sustainability and Social Responsibility: the Chief Executive Officer Carlo Pesenti – who assumed the role of Chairperson – Laura Zanetti, and the Independent Directors, Mirja Cartia d'Asero, Elsa Fornero and Pietro Ruffini. The Committee is chaired by the Chief Executive Officer to ensure the full integration of ESG issues into the Company's strategies. At each meeting, the Sustainability Department is in attendance, with one of its members acting as secretary, together with the Director of Investment Management and the Director of Strategic Development.

The Committee is tasked with providing the Board with advice and proposals in order to implement a development strategy focused on sustainability, consistent with Italmobiliare's mission in all its dimensions: governance, economic, social and environmental.

The Committee's responsibilities and procedures are laid down in the Regulation governing the Board of Directors. In particular, in the ESG area, the Committee assists the Board in:

- i. defining Italmobiliare's business strategy and mission, also with regard to the evolution of internal processes;
- ii. conducting analyses and research;
- iii. promoting a culture of integration;
- iv. creating long-term shared value for the Company and the Group.

Among its specific functions, the Committee:

- a) reviews and evaluates the sustainability strategy adopted, aimed at ensuring the creation of value over time for the shareholders and all the other stakeholders, in compliance with the commitments arising from adherence to international ESG principles;
- b) promotes the adoption of sustainability principles, partly through the relevant corporate functions, defines related objectives, and monitors their achievement;
- c) proposes initiatives and projects and identifies best practices to strengthen the culture of sustainability across the Group and to support the implementation of the strategic guidelines, in full compliance with ESG principles;
- d) monitors the implementation of the policies and guidelines adopted by the Company from time to time with regard to sustainability matters;
- e) reviews sustainability reporting, verifying the methodology applied and the consistency of the strategies and objectives identified. In coordination with the Control and Risk Committee – also through Directors who serve on both Committees – it assesses the adequacy of the sustainability reporting in accurately representing the business model, the Company's strategies, the impact of its activities, and its overall performance, as well as for the purposes of integrating ESG considerations into the internal control and risk management system.

The Committee has regular access to the corporate information and functions necessary to carry out its duties and has an annual budget of 50,000 euro allocated by the Board of Directors.

In 2025, the Committee met three times, with the attendance of the Board of Statutory Auditors and representatives of the Sustainability Department. Each meeting lasted slightly less than one and a half hours on average. Among the activities carried out, the Committee:

- as part of the multi-year sustainability and social responsibility programmes (structured around the four pillars of governance and value chain; climate strategy; health, safety and well-being; gender and human-capital development), verified the achievement of the 2024 ESG Plan objectives and defined the 2025 ESG Plan, monitoring its progressive implementation over the course of the year;
- examined the definition and initial development of the “Flagship Projects 2025+”, i.e. the multi-year initiatives with high strategic value, particularly focused on decarbonisation;
- examined, prior to its submission to the Board of Directors, the 2024 sustainability reporting prepared in accordance with the CSRD/ESRS standards;
- monitored the launch of the 2025 sustainability reporting process, prepared in accordance with the CSRD/ESRS standards, with particular reference to the update of the materiality matrix;
- reviewed and discussed the ESG ratings assigned to the Company;
- monitored developments in sustainability-related regulation.

Supporting documentation was consistently made available at least two days in advance.

In 2026, up to the date of approval of this Report, the Committee met twice, with the attendance of the Board of Statutory Auditors and the Sustainability Department, to define the materiality matrix, to review the 2025 sustainability reporting, to assess the 2025 ESG Plan outcomes (which, as in the previous year, is also linked to a variable remuneration objective common to all top management), and to examine the 2026 ESG Plan.

16. CONTROL AND RISK COMMITTEE

Following its appointment in April 2023, the Board of Directors set up the Control and Risk Committee, which currently consists of Mirja Cartia d'Asero, Chairperson, Chiara Palmieri, both Independent Directors, and Giorgio Bonomi, non-Executive Director.

All members have appropriate experience in finance, accounting and risk management, as assessed by the Board at the time of their appointment and disclosed to the market. The Committee as a whole has adequate expertise in the sector of activity in which the Company operates.

The Committee has a duty to provide the Board with advice and proposals on: *i)* the Internal Control and Risk Management System and *ii)* periodic financial reporting; on the renewal of the corporate bodies, duties relating to social sustainability matters connected with the Company's business were attributed to the Committee for

Sustainability and Social Responsibility, which was described above and with which the Control and Risk Committee coordinates.

The Control and Risk Committee also performs its duties based on information flows received from the Head of Internal Audit of the Company, regarding Italmobiliare S.p.A. and its subsidiaries that do not have autonomous third-level control systems and structures. As regards the other subsidiaries, which may also include entities subject to monitoring by control authorities, the Committee uses the information flows laid down in the guidelines of the ICRMS and, in particular, information received from their equivalent departments, where present.

The Committee's responsibilities and procedures are laid down in the Regulation governing the Board of Directors. In particular, the Control and Risk Committee, in assisting the Board of Directors:

- a) after consulting the Financial Reporting Officer, the Board of Statutory Auditors, and the Independent Auditors, considers whether the reference accounting standards have been applied properly and consistently in the preparation of the consolidated financial statements;
- b) assesses whether periodic financial disclosures accurately reflect the business model and the Company's strategies, the impact of its activities, and the results achieved;
- c) coordinates with the Committee for Sustainability and Social Responsibility—also through Directors who serve on both Committees—to assess whether the sustainability reporting appropriately represents the business model, the Company's strategies, the impact of its activities, and the results achieved, including for the purposes of the internal control and risk management system;
- d) expresses opinions on specific aspects involved in identifying the principal business risks and supports the assessments and decisions of the Board of Directors regarding the management of risks arising from any identified adverse events;
- e) examines the periodic reports, as well as those of particular significance, prepared by the Internal Audit Department;
- f) monitors the independence, adequacy, effectiveness and efficiency of the Internal Audit Department, which it may ask to carry out checks in specific operational areas, simultaneously notifying the Chairperson of the Board of Statutory Auditors;
- g) examines the periodic internal control and risk management reports received from the subsidiaries of Italmobiliare S.p.A., in particular those prepared by their equivalent Committees;
- h) reports to the Board of Directors, at least every six months, at the time of approval of the financial statements and the half-yearly report, on the overall activities carried out and on the adequacy of the Internal Control and Risk Management System (ICRMS);
- i) carries out the additional tasks envisaged by the Guidelines of the Internal Control and Risk Management System, as well as any tasks assigned to it by the Board.

The Board of Directors is supported by the Control and Risk Committee for the following issues and activities within the remit of the Board:

- a) determines guidelines for the internal control and risk management system, consistent with the Company's strategies, and assesses at least annually, the adequacy of the system with respect to the characteristics of the business and the risk profile accepted, as well as its effectiveness;
- b) resolves on the appointment and revocation of the Internal Audit manager, establishing remuneration for the role consistent with corporate policies and ensuring that sufficient resources are made available for the performance of the assigned duties;
- c) approves, at least annually, the audit plan prepared by the Internal Audit manager, after consulting the Board of Statutory Auditors and the Chief Executive Officer;
- d) appoints the Supervisory Body pursuant to Legislative Decree 231/2001;
- e) assesses the introduction of measures to guarantee the effectiveness and impartiality of the business functions that perform control activities;
- f) assesses, after consulting the Board of Statutory Auditors, the conclusions expressed by the Independent Auditors in their letter of recommendation, if issued, and in the additional report addressed to the control body;
- g) in the report on corporate governance, describes the principal characteristics of the internal control and risk management system and the methods used to coordinate the parties involved in the system, explaining the choices made regarding the composition of the Supervisory Body.

The meetings are minuted by the Secretary of the Committee. The Committee regularly invites the Board of Statutory Auditors, as well as the relevant managers of the Company for the topics on the agenda, to attend its meetings and provide suitable in-depth analyses; the Financial Reporting Officer and the Head of Internal Audit attend all meetings in any case. The Committee has regular access to the necessary corporate information and functions to carry out its duties and has an annual budget of 50,000 euro assigned by the Board of Directors.

The Chairperson and the Chief Executive Officer are informed of the participation of representatives from the company functions in the Committee meetings.

In 2025, the Committee held a total of six meetings, each lasting slightly less than one and a half hours on average. The Board of Statutory Auditors consistently attended these meetings.

During 2025, the Committee, among other things:

- examined and approved the Company's approach to carrying out impairment tests; it also reviewed and noted the results;
- assessed correct use of the accounting standards and their consistency in drawing up the periodic financial report, together with the Financial Reporting Officer and after consulting the Board of Statutory Auditors;
- reviewed the Audit Plan for 2025, subsequently approved by the Board of Directors, and monitored its implementation;
- reviewed risk management outcomes; received updates from the Investment Management Department and the Finance Director, also in relation to the macroeconomic scenarios;
- examined the reports prepared by the Head of Internal Audit to assess the adequacy, efficiency and effective functioning of the Internal Control and Risk Management System;
- was informed of the activities carried out and those planned for the purpose of complying with the legislation transposing the CSRD Directive and the so-called NIS2 Directive on cybersecurity;
- met the equivalent departments at the main subsidiaries, as well as the Independent Auditors, before the Board of Directors examined the draft financial statements and the interim report;
- reviewed the sustainability reporting, previously submitted to the Committee for Sustainability and Social Responsibility, verifying its suitability for the internal control and risk management system;
- received periodic updates from the Head of Legal Affairs on the state of outstanding disputes;
- exchanged information with the Board of Statutory Auditors and the Supervisory Body on their activities.

Supporting documentation was generally made available at least two days in advance, except for a few limited cases where it was provided one day in advance. In these instances, all clarifications and further details requested by the Committee were provided during the meeting.

In 2026, up to the date of approval of this Report, the Committee met three times in the presence of the Board of Statutory Auditors to review: the impairment test methodology applied in 2025 and its results; the results of risk management; the accounting policies used in drawing up the 2025 annual financial report; updates on outstanding disputes; the results of the 2025 Audit activities and the 2026 Audit Plan.

The Committee met the Independent Auditors before the Board of Directors examined the 2025 draft financial statements; reviewed the 2025 sustainability reporting, which had been previously submitted to the Committee for Sustainability and Social Responsibility, verifying its suitability for the ICRMS; reviewed the section of this Report concerning the description of the ICRMS, sharing its content.

A total of six meetings are scheduled for 2026.

IV. The Internal Control and Risk Management System

1. DEFINITION AND OBJECTIVES

The Internal Control and Risk Management System ("**ICRMS**") of Italmobiliare is a fundamental component of the Corporate Governance framework. It consists of a set of organisational rules, procedures and structures designed to enable the identification, measurement, management and monitoring of the main risks facing the Company and its subsidiaries.

The Board of Directors has defined and continuously updated the Internal Control and Risk Management System Guidelines ("**Guidelines**"), in compliance with the recommendations of the Code, having obtained the favourable opinion of the Control and Risk Committee. Considering the Group's structure, which includes companies – some of which may be subject to supervision by Supervisory Authorities – with internal control systems and structures responsible in turn for overseeing the ICRMS of their respective sub-groups (so-called "Group of groups"), the Guidelines aim to ensure consistency and harmonisation across all control tools. This involves establishing the roles and departments responsible for the identification, measurement, management and monitoring of the main risks of the Company and its subsidiaries.

The Guidelines have been circulated to the subsidiaries so that they can take them into account in the definition and maintenance of their own ICRMS, without prejudice to each company's autonomy and independence.

The ICRMS must contribute to the running of the Company in line with corporate objectives set by the Board of Directors, promoting informed decision-making. It helps to safeguard company assets, ensure the efficiency and effectiveness of company processes, enhance the reliability of financial reporting, and secure compliance with laws, regulations, the By-laws and internal procedures.

The ICRMS is structured into three levels of control, in line with national and international best practices and with the provisions of the Organisation, Management and Control Model pursuant to Legislative Decree 231/2001:

1st level: line checks designed to ensure that operations are performed correctly, in line with the Company's business and governance objectives; these checks are carried out by the heads of operating areas, who identify and assess the risks and define specific procedures for managing them;

2nd level: functions responsible for defining methodologies and tools for risk management and for performing risk monitoring activities;

3rd level: the Internal Audit function, as well as other functions that provide objective and independent assurance regarding the design and operation of the overall System.

The Guidelines provide for the involvement of the following corporate bodies and functions:

the **Board of Directors**, with the following tasks:

- a) to assess and approve investments that are consistent with the mission of the Company and the strategic guidelines approved by the Board during the annual budget review, with regard to the indications provided by the Committee for Sustainability and Social Responsibility (see below) regarding the generation of long-term value;
- b) to determine the nature and level of risks compatible with the strategic objectives of the Company, considering all elements that may be significant for sustainable success;
- c) to establish the Company's corporate governance system and the structure of the Group it heads, and to assess the adequacy of the organisational, administrative and accounting arrangements of the Company and its strategically important subsidiaries, with particular reference to the internal control and risk management system;
- d) to examine at least once a year the main corporate risks as well as the set of control processes implemented and planned for their prevention, reduction and effective and efficient management;

the **Board of Directors**, with the support of the Control and Risk Committee, with the following tasks:

- e) to set guidelines for the internal control and risk management system, consistent with the Company's strategies, and to assess at least once a year its adequacy in relation to the characteristics of the business and its risk profile, as well as its effectiveness;

- f) to appoint and remove the Head of Internal Audit, establishing remuneration for the role that is consistent with corporate policies and ensuring that sufficient resources are made available for the performance of the assigned duties; if it decides to entrust the Internal Audit function, as a whole or by segments of activity, to an external entity, it ensures that it meets the requisites of professionalism, independence and organisation and provides adequate reasons for this choice in the corporate governance report;
- g) to approve, at least once a year, the work plan prepared by the Head of Internal Audit, following consultation with the control body and the Chief Executive Officer;
- h) to appoint the Supervisory Body pursuant to Article 6, paragraph 1, letter b) of the Legislative Decree no. 231/2001;
- i) to assess the introduction of measures to ensure the effectiveness and impartiality of the business functions that perform control activities;
- j) to evaluate, following consultation with the control body, the results presented by the Independent Auditors in any letter of recommendation and in the additional report addressed to the control body;
- k) to describe in the report on corporate governance the main characteristics of the internal control and risk management system and the methods of coordination between the parties involved, to provide an overall assessment of the system adequacy, and to explain the choices made regarding the composition of the supervisory body.

The Board of Directors, with the assistance of the Control and Risk Committee and the Committee for Sustainability and Social Responsibility, based on their feedback, evaluates the adequacy, effectiveness and proper functioning of the ICRMS with respect to the characteristics of the business.

With reference to subsidiaries with autonomous internal control structures performing duties similar to those assigned by the Code to the Control and Risk Committee, the activities of Italmobiliare's Control and Risk Committee primarily involve reviewing and assessing the reports received from these structures.

During the course of the year, when the Board of Directors carried out its investment analyses, it did not identify any risk profiles incompatible with the Company's strategic objectives, also considering their sustainability over the medium- to long-term.

The Board of Directors approved the work plan prepared by the Head of Internal Audit, following consultation with the Board of Statutory Auditors and the Chief Executive Officer.

A structured risk-management process is in place within the main subsidiaries.

2. CHIEF EXECUTIVE OFFICER IN CHARGE OF SETTING UP AND MAINTAINING THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Chief Executive Officer, Carlo Pesenti, was identified as the "Chief Executive Officer responsible for implementing and maintaining the internal control system" (**Chief Executive Officer**).

As such, he has the task of:

- a) identifying the main risks, taking into account the characteristics of the business activities carried on by the Company and its subsidiaries, and submitting them periodically for review by the Board of Directors;
- b) implementing the Guidelines and overseeing the planning, implementation and management of the ICRMS, constantly verifying its adequacy and effectiveness, and adapting it to the dynamics of operating conditions and the legislative and regulatory environment;
- c) promptly reporting to the Control and Risk Committee, the Committee for Sustainability and Social Responsibility (or the Board of Directors), any issues or problems identified in the course of his activities or that come to his attention, so that appropriate action can be taken.

He can also entrust the Internal Audit Department to carry out reviews of specific operational areas and to verify whether business operations comply with the rules and internal procedures, giving simultaneous notice to the Chairperson of the Board of Directors, the Chairperson of the Control and Risk Committee, and the Chairperson of the Board of Statutory Auditors.

He has the task, together with the Financial Reporting Officer, of issuing statements regarding the adequacy and effective application of the administrative and accounting procedures, the compliance of the documents with international accounting standards, ensuring that the documents correspond to the contents of the accounting books

and records, and the suitability of the documents for providing a true and fair view of the key financial data of the Company and of the Group.

3. HEAD OF INTERNAL AUDIT

The Board of Directors, on the proposal of the then "Director in charge of the internal control and risk management system," and after consulting the Board of Statutory Auditors, appointed Delia Strazzarino as Head of Internal Audit, setting her remuneration in line with the Company's policies and ensuring that she had adequate resources to perform her duties.

The Head of Internal Audit has the task of verifying that the ICRMS operates effectively, is adequate, and aligns with the Guidelines laid down by the Board of Directors, providing an objective assessment of its adequacy for the corporate bodies and top management. She accordingly has direct access to all information needed to carry out her role, is not responsible for any operating area, and reports functionally to the Board of Directors.

The Head of Internal Audit verifies how the ICRMS operates in practice, both on an ongoing basis and in response to specific needs, in compliance with international standards, through an Audit Plan approved by the Board of Directors, based on a structured process of analysis and assessment of the main risks. Once a year, as part of the Audit Plan, the Head of Internal Audit explains to the Board of Directors the department's structure and its adequacy, both in size and expertise, to perform the tasks assigned to it. She prepares periodic reports containing relevant information on her department's activities, the methods used to manage risk, compliance with risk mitigation plans, an assessment of the appropriateness of the ICRMS, and any reports on particularly significant events, and sends them to the Chairperson of the Board of Statutory Auditors, the Chairperson of the Control and Risk Committee and the Chairperson of the Board of Directors, and the Chief Executive Officer. She also verifies the reliability of the information systems, including the accounting systems.

As part of its "Quality Assurance and Improvement Programme," the Internal Audit Department undergoes a Quality Assurance Review by an independent external body at least once every five years; the last review, which was completed in 2020, concluded with an assessment of overall compliance with the international standards for professional practice and the Code of Ethics of Internal Audit. The Internal Audit Department plans to launch the next review in 2026, to take into account the new international standards for the professional practice of internal auditing, as well as the organisational changes that have taken place.

After obtaining the opinion of the Control and Risk Committee and having consulted with the Chief Executive Officer and the Board of Statutory Auditors, the Board of Directors approved:

- the mandate of the Internal Audit Department, last amended by resolution on March 2, 2017, which formally defines the mission, objectives, organisational context, and responsibilities of the department in line with the definition of Internal Auditing, the Code of Ethics, and the international standards as set out in the International Professional Practices Framework of the Institute of Internal Auditors;
- the work plan for 2025 prepared by the Head of Internal Audit.

The Internal Audit Department carries out its duties directly in all areas of the Italmobiliare Group, except in subsidiaries that have an independent Internal Audit function.

At Group level, the Internal Audit Department coordinates with the equivalent functions at the subsidiaries to promote a uniform approach to the operational and adequacy checks of the ICRMS, taking into account the autonomy, independence, and responsibilities of the subsidiaries and their corporate bodies.

4. THE ORGANISATION, MANAGEMENT AND CONTROL MODEL PURSUANT TO LEGISLATIVE DECREE 231/2001 AND THE SUPERVISORY BODY

In order to strengthen the effectiveness of the internal control and corporate governance system, with the aim of preventing the commission of corporate offences and offences against the Public Administration, the Company has adopted, since 2004, an Organisation, Management and Control Model (the "**Model**"), in application of Legislative Decree 231/2001. The Model, which has been updated over the years, was most recently amended by resolution of the Board of Directors on July 30, 2025.

By adopting the Model, the Company seeks to disseminate and establish a corporate culture based on legality, with the express censure of any conduct contrary to the law and the regulations contained in the Model.

There have been several updates to incorporate changes to the law, which have gradually extended the scope of Legislative Decree 231/2001 to additional categories of offences beyond those originally included. All updates to the Model, except those of a purely formal nature, have been carried out on the basis of targeted risk assessments performed by consultants specialising in the matters considered on each occasion.

The General Section of the Model is available on the Company's website (www.italmobiliare.it), in the "Governance/Organisation, management and control model" section.

The main subsidiaries of Italmobiliare also have an Organisation, Management and Control Model pursuant to Legislative Decree 231/2001.

The task of continuously supervising the effective functioning of, and compliance with, the Model, as well as proposing updates to it, is assigned to the Supervisory Body, appointed by the Board of Directors to which it reports directly, and given adequate resources to ensure autonomy, professionalism, and independence in the exercise of its duties.

The Supervisory Body itself, in implementation of Legislative Decree 24/23 on whistleblowing, was identified as the Person in Charge of the Management of Whistleblowing Reports, as described in the dedicated procedure, updated in December 2023 in compliance with the law.

The Supervisory Body, appointed by the Board of Directors on May 10, 2023, in accordance with the recommendation of the Control and Risk Committee and as provided by the Model itself, is composed of Paolo Sfameni (Chairperson), an external consultant, Antonia Di Bella, Standing Auditor, and Delia Strazzarino, the Company's Head of Internal Audit.

As part of its duties, the Supervisory Body periodically meets with the Company's managers in charge of sensitive areas as defined by Legislative Decree 231/2001, the Board of Statutory Auditors, the Control and Risk Committee, the Financial Reporting Officer, and representatives of the independent auditors to discuss any matters concerning the prevention of offences specified in the Model, including those relating to financial reporting. The Supervisory Body is granted autonomous initiative and control powers within the Company to perform its functions effectively.

The Supervisory Body periodically, and at least once every six months, prepares a written report on its activities, sending it together with a documented list of any expenses it may have incurred to the Chairperson of the Board of Directors, the Chairperson of the Board of Statutory Auditors, the Chairperson of the Control and Risk Committee, and the Financial Reporting Officer. Such reports include any proposals for additions or amendments to the Model. This periodic report must at least contain or highlight:

- a) any problems that have arisen regarding the methods of implementing the procedures laid down in the Model;
- b) the reports received from internal and external parties, with any comments they may have on the Model;
- c) disciplinary procedures and penalties, if any, applied by the Company, with exclusive reference to activities at risk;
- d) a complete assessment of how the Model functions, with any indications for supplements, corrections or amendments.

The Supervisory Body met 6 times during the year 2025.

5. INTERNAL CONTROL AND FINANCIAL REPORTING

The Internal Control and Risk Management System relating to the financial reporting process is composed of a series of company rules and procedures adopted across operational structures to ensure the soundness, accuracy, reliability and timeliness of financial reports.

Italmobiliare has defined its own operating model to comply with the Law No. 262/2005 and its subsequent amendments (the "**Operating Model**"), outlining the operational approach for carrying out its activities. This Model is based on the principles contained in the CoSO framework and in the document "Internal Control over Financial Reporting Guidance for Smaller Public Companies", also developed by CoSO.

In this Operating Model, the Internal Control and Risk Management System is considered together with the internal control system in relation to the financial reporting process.

The Operating Model defined by Italmobiliare is based on the following main elements:

- a. Preliminary Analysis.** This activity, carried out on an annual basis and whenever deemed necessary, is aimed at identifying and assessing the risks related to the Internal Control and Risk Management System with regard to financial reporting, in order to determine priorities for the steps to be taken in terms of documentation, assessment, and testing of administrative and accounting procedures and related controls. The identification of the relevant entities and processes is based on both quantitative factors (proportion of revenue and assets of a single entity compared with the consolidated amounts, the size of consolidated balance sheet items related to a particular process) and qualitative factors (the country in which an entity operates, specific risks, and risk levels assigned to the various items);
- b. Operational planning.** Every year, activities are planned on the basis of the priorities identified through the preliminary analysis and any other assumptions;
- c. Analysis of controls at company level.** The individual companies within the scope of intervention, identified in the preliminary analysis, are responsible for the related activities *i)* assessment of the effectiveness of the Internal Control and Risk Management System in relation to the governance principles operating at company level (Entity Level Controls), and *ii)* overall management of the information systems used in processes relevant for financial reporting, as well as the related IT infrastructure (Information Technology General Controls), to be carried out in accordance with the timing established during the operational planning phase and on the basis of the guidelines, instructions, and templates provided by the Financial Reporting Officer;
- d. Analysis of controls at process level.** The individual companies within the scope of intervention, identified in the preliminary analysis, are responsible for the related activities: *i)* documenting, with varying levels of detail depending on the level of risk allocated, the administrative and accounting processes previously identified, and *ii)* performing tests to check the effective operation of controls, in accordance with the deadlines established during operational planning and on the basis of guidelines, instructions and templates provided by the Financial Reporting Officer;
- e. Assessment of the adequacy and effective operation of the administrative and accounting procedures and related controls.** In order to guarantee compliance with the key requirements for financial reporting ("financial statement assertions"), on the basis of the results of the activities carried out and the documentation obtained, the Financial Reporting Officer assesses the overall adequacy and effective operation of the system of administrative and accounting procedures and related controls, and, more generally, the Internal Control System for these areas.

With reference to the financial reporting process, the ICRMS has also benefited from: the continuous development of an integrated corporate governance system (Service Orders, company processes, and procedures); more accurate organisation and programming in relation to the provisions of Law no. 262/2005 and subsequent corrective decrees issued by the legislator to increase transparency in corporate reporting and strengthen the internal control systems of listed issuers.

From the 2024 financial year onwards, financial disclosure includes sustainability reporting, as required by Legislative Decree No. 125/2024, which implements Directive 2022/2464/EU (Corporate Sustainability Reporting Directive, or CSRD) on sustainability reporting.

Over the years, Italmobiliare has progressively enhanced its ability to report, according to international standards, on its commitments, strategies, objectives, and performance, addressing the structural complexity of its scope, which requires solid information flows from all consolidated companies. The mandatory disclosure elements derive from the ESRS (European Sustainability Reporting Standards) reporting principles and the transparency requirements of the sustainable finance taxonomy. In addition, voluntary commitments made (e.g., UNGC, WEPS, SBTi), participation in major ESG ratings (e.g., S&P Global, CDP, Sustainalytics), and, more generally, the expectations of shareholders and stakeholders, require further disclosure elements, for which, where applicable, reference is made to the latest version of the Global Reporting Initiative (GRI) standards.

A specific internal procedure defines the rules for the entire sustainability report consolidation and drafting process, ensuring its completeness, accuracy, and transparency. The adopted procedure is an integrated component of the Company's internal control and risk management system and addresses the direct need to mitigate the key specific risks identified, namely the completeness and integrity of direct data, the representativeness of estimates used, the collection of data and information from indirect sources, and the timelines for making the information available. More generally, the procedure is integrated into the risk oversight responsibilities outlined in the adopted Organisation, Management, and Control Model.

The governing bodies and auditors are periodically informed about the entire process. In particular, the Board of Directors, after discussion in the Committee for Sustainability and Social Responsibility, is informed in advance about the scope, methodology, and content of the new reporting cycle, which is aimed at better representing the Group's sustainable commitments and responding to the evolution of regulations in this area.

Following the parent company's model, and in support of and integration with it, the portfolio companies have adopted a similar structured process.

6. INDEPENDENT AUDITORS

The auditing of the Company's accounts, as required by current law, has been entrusted to a firm of independent auditors appointed by the Shareholders' Meeting on the proposal of the Board of Statutory Auditors. The assignment to audit the separate financial statements of Italmobiliare, the consolidated financial statements of the Group, and to perform a limited audit of the condensed half-year consolidated financial statements of the Group for the years 2019-2027 was awarded to Deloitte & Touche S.p.A. by the Shareholders' Meeting on April 17, 2019, following the recommendation of the Board of Statutory Auditors. Deloitte & Touche also provides assurance on the sustainability report.

7. FINANCIAL REPORTING OFFICER

The Financial Reporting Officer, identified pursuant to Article 154-bis of the CLF and Article 28 of the By-laws in the person of Mauro Torri, must be a manager meeting the integrity requirements established by law for members of the Board of Directors; he must also have acquired at least three years' experience in administration, accounting, finance, or control at the Company, its subsidiaries, or at other joint-stock companies.

At the time of his appointment, on the proposal of the Remuneration Committee and with the favourable opinion of the Board of Statutory Auditors, the Board of Directors established the compensation of the Financial Reporting Officer and granted him full spending autonomy to exercise the powers conferred on him, with the obligation to report to the Board of Directors on a half-yearly basis regarding how funds have been spent.

In accordance with Law No. 262/2005, the Company has adopted a specific Regulation which, in compliance with the law, the By-laws, and based on relevant best practices, among other things:

- a) defines the responsibilities and powers of the Financial Reporting Officer of Italmobiliare;
- b) identifies the responsibilities and method for the appointment, removal, and termination of office of the Financial Reporting Officer, the term of office, and requirements in terms of professional skills and integrity;
- c) lays down the principles of conduct that the Financial Reporting Officer must observe in the event of conflicts of interest, as well as the confidentiality to be maintained while carrying out their activities;
- d) indicates the responsibilities, powers and resources granted to the Financial Reporting Officer for the exercise of their duties, identifying the financial and human resources needed to carry out the mandate;
- e) defines dealings with other Company entities and functions, with the corporate bodies, the internal and external control bodies, and with subsidiaries, regulating the information flows between them;
- f) explains the process of internal and external attestation with reference to: the Financial Reporting Officer's statements that the Company's acts and communications disclosed to the market are consistent with the supporting documentation, books of account, and accounting entries, and with the sustainability report; statements made by the Financial Reporting Officer and delegated administrative bodies relating to the financial statements, the condensed interim financial statements, the consolidated financial statements, and the sustainability report.

Furthermore, following the amendment of Article 154-bis of the CLF (paragraph 5-ter) in 2024, the delegated administrative bodies and the Financial Reporting Officer must certify, through a specific certification, that the sustainability report included in the Directors' Report is prepared in accordance with the reporting standards applied pursuant to Directive 2013/34/EU and Legislative Decree No. 125/2024, and with the specifications adopted pursuant to Article 8, paragraph 4, of Regulation (EU) 2020/852 of the European Parliament and of the Council of June 18, 2020.

The Regulation applies to all entities, functions and corporate bodies of Italmobiliare, as well as to all its direct or indirect subsidiaries. The Regulation has been circulated to the staff of the Company, its subsidiaries, as well as to all those affected by its contents.

The functions and duties of the Financial Reporting Officer laid down in the Regulation include:

- a) establishing adequate administrative and accounting procedures for the drafting of the financial statements, the condensed interim financial statements, and the consolidated financial statements, as well as any other financial communication, ensuring regular updates, promoting dissemination, awareness, and compliance, and verifying actual application;
- b) establishing adequate administrative and accounting procedures for the drafting of the sustainability report, as well as any other non-financial communication, ensuring their regular updating, promoting their dissemination, awareness, and compliance, and verifying their actual application;
- c) assessing, together with the Control and Risk Committee and the Independent Auditors, the correct application of the accounting standards and their consistency for the purpose of the financial statements mentioned above;
- d) reporting periodically to top management and the Board of Directors on the activities performed;
- e) overseeing the periodic review of activities related to the assessment and updating of the risk map concerning the economic, financial, and sustainability reporting;
- f) contributing to the design of IT systems that have an impact on the Company's economic, financial, and sustainability position.

8. RISK MANAGEMENT

The Company develops and maintains a risk management model aimed at identifying, assessing, and managing the main business risks on the basis of the guidelines defined periodically by the Board of Directors, also with a view to pursuing the Company's sustainable success.

Within the context of the ICRMS, the Head of Risk Management:

- proposes a governance framework for enterprise risk management to the Board of Directors;
- coordinates the risk assessment activities carried out by the other corporate functions involved (the "risk experts") for specific insights, to the extent of their sphere of competence;
- coordinates the process of analysing and managing the risks deemed relevant to the Group, consolidating the results of the risk assessment carried out by the associate companies;
- ensures the definition, development, and ongoing updating of the methodology to support the risk management process, providing methodological support to the individual functions involved.
- prepares periodical risk reporting for top management, the Control and Risk Committee and the Board of Directors, providing an integrated representation of the Company's main risks;
- at least once every six months, monitors the implementation of the strategies adopted to mitigate the main risks identified.

Responsibility for risk management oversight is entrusted to the Head of Internal Audit, who does not make any decisions regarding risk management, but carries out work involving assessment and monitoring. Specific actions to handle risks are decided by management.

Analysis of risk events that could affect achievement of the objectives of the Company and the Group continued in 2025 and up to the date of approval of this Report, as did monitoring of the mitigation actions taken for the main risks. Among these, increasing attention is being devoted to the management of cyber risk, which has long been the subject of dedicated procedures, audits and assessments and, more recently, in the area of security, of a Group-wide cyber-security framework and of specific initiatives implemented, where applicable, in compliance with the NIS2 Directive (Legislative Decree 138/24).

In 2024, the risk assessment methodology was aligned with the provisions of the CSRD Directive.

For the purposes of conducting the financial materiality analysis, risks were associated with their respective sustainability/ESRS themes, and the time horizon for the assessment was extended:

- in the short term, in line with the long-established ERM methodology, the assessment is carried out using probability and impact scales;
- in the medium term (within five years) and long term (beyond five years), the identification and disclosure of risks relevant to those time horizons is planned, in order to detect future risk factors in a timely manner.

Furthermore, the assessment was also extended to opportunities, understood as the potential to improve the Company's economic performance by seizing business opportunities and adapting to changes in the external, market, and/or technological context.

9. COORDINATION BETWEEN PARTIES INVOLVED IN THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The various parties involved in the Internal Control and Risk Management System (the Board of Directors, Chief Executive Officer, Control and Risk Committee, Committee for Sustainability and Social Responsibility, the Head of Internal Audit, the Financial Reporting Officer, the Board of Statutory Auditors, Supervisory Body, and other roles and company departments with specific duties regarding internal control and risk management) are coordinated through an exchange of information and meetings scheduled on an ad-hoc basis or held during meetings of the individual bodies.

10. ASSESSMENT OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

On the basis of the assessments and information received, with the support of the activities carried out by the Control and Risk Committee and with the contribution of the Chief Executive Officer, the Head of Internal Audit, and the Financial Reporting Officer, the Board of Directors acknowledged that no critical issues were identified that could undermine the overall adequacy and effectiveness of the Internal Control and Risk Management System with respect to the structure of the Company and the Group and the characteristics of the business. The Internal Control and Risk Management System is, in fact, subject to ongoing improvement through systematic monitoring and planning of enhancement initiatives, in line with relevant international standards.

V. Board of Statutory Auditors

1. APPOINTMENT OF THE STATUTORY AUDITORS

The mechanism for the appointment of Statutory Auditors, as provided for under the By-laws currently in force, is described below. In this regard, it should be recalled that the Board of Directors has resolved to submit to the next Shareholders' Meeting, convened for April 22, 2026 in extraordinary session, the adoption of the so-called one-tier administration and control system pursuant to Articles 2409-sexiesdecies et seq. of the Italian Civil Code, characterised by the presence of a Board of Directors and, within it, a Management Control Committee entrusted with control functions, without the appointment of a Board of Statutory Auditors, which would therefore no longer be appointed.

Should the one-tier governance system be approved by the Shareholders' Meeting, it will apply to the renewal of the corporate bodies by that same Meeting.

That said, under the By-laws currently in force, the members of the Board of Statutory Auditors are appointed on the basis of lists submitted by the Shareholders, according to a system designed to allow minority shareholders to appoint a Standing Auditor, who assumes the office of Chairperson, and an Alternate Auditor. The appointment is made in accordance with current regulations on gender balance.

The lists must be filed at the Company's registered office or sent to the certified email address indicated in the notice of call of the Shareholders' Meeting at least 25 days prior to the date set for the Meeting; this is stated in the notice of call, together with the procedures and the shareholding required for their submission.

Only Shareholders who, alone or jointly, can provide evidence that they hold a stake in the share capital with voting rights not lower than the threshold set by Consob pursuant to current regulations for the appointment of the Board of Directors are entitled to present lists.

No shareholder may file or participate in the filing of more than one list, directly or through a nominee or trust company, or vote for different lists. Shareholders belonging to the same group and shareholders who are party to a shareholders' agreement involving the Company's shares may not file or vote for more than one list, even through a nominee or trust company. Lists filed in violation of these restrictions will not be accepted.

Each candidate can only be on one list, under penalty of ineligibility.

Lists that include a total number of candidates equal to or greater than three must be composed of candidates belonging to both genders, in a manner that complies with current regulations on gender balance. This applies to candidates for the office of Standing Auditor, as well as to candidates for the office of Alternate Auditor.

At the time they are filed, lists must include:

- a. the statements with which the individual candidates accept their candidacy and declare, under their own responsibility, that they meet the professionalism requirements laid down in the By-laws, that there are no grounds for ineligibility, that they comply with the integrity requirements established by law, and whether or not they meet the independence requirements established by law and the Code;
- b. a brief curriculum vitae outlining the personal and professional background of each candidate, indicating the positions they hold as director or statutory auditor in other companies;
- c. information on the identity of the shareholders who have presented lists. The certification or statement proving ownership of the shareholding prescribed by the law in force when the list is presented may be submitted after filing, provided it reaches the Company before the deadline laid down in current regulations on the publication of lists by the Company;
- d. a statement by shareholders – other than those holding a controlling or majority stake, jointly or severally – acknowledging that they do not have any links/relationships as defined by law.

If a list does not comply with these provisions, it will be considered as not having been presented.

In the event that, by the deadline of 25 days prior to the date of the Meeting, only one list has been filed, or only lists presented by shareholders who are connected to each other pursuant to current regulations, additional lists may be submitted up to the third day following that date, and the threshold indicated in the notice of call is halved.

At least 21 days prior to the date set for the Shareholders' Meeting convened to resolve on the appointment of the control bodies, the Company shall make the lists of candidates filed by shareholders and the corresponding documentation available to the public at the registered office, at the market management company, and on its website.

In the event of more than one list being filed:

- the list that obtains the highest number of votes at the Meeting elects two Standing Auditors and two Alternate Auditors, in the order in which they are listed in the respective sections of the list;
- the minority shareholders' list that obtains the highest number of votes among the lists presented and voted by shareholders who are not connected in any way, directly or indirectly, with the majority shareholders, elects the third Standing Auditor and the third Alternate Auditor, in the order in which they are listed in the respective sections of the list;
- if more than one list obtains the same number of votes, a run-off is held between these lists by all the shareholders with voting rights present at the Meeting, and the candidates are elected from the list that obtains a majority of the share capital represented at the Meeting.

If a party connected to a majority shareholder votes for a list of the minority shareholders, the connection is considered significant only for the purposes of excluding the minority shareholders' elected Statutory Auditor if this vote was decisive for the election of the Auditor in question.

If only one list is filed, all the candidates included on that list are elected with a simple majority vote of the share capital represented at the Meeting.

If, as a result of voting on multiple lists or on the only list presented, the composition of the Board of Statutory Auditors, as to its standing members, does not meet the current regulations on gender balance, the necessary replacements will be made by selecting candidates to the office of Standing Auditor on the list that has obtained the highest number of votes or from within the only list presented, starting from the last candidate on that list.

If no lists are filed, the Shareholders' Meeting appoints the Board of Statutory Auditors with a simple majority vote of the share capital represented at the Meeting, provided that gender balance is ensured in accordance with current legislation.

The role of Chairperson of the Board of Statutory Auditors lies with the person indicated in first place on the list presented and voted by the minority shareholders, or with the first person listed if only one list is filed, or with the person appointed as such by the Shareholders' Meeting if no lists are presented.

Pursuant to the By-laws, those who find themselves in a situation of incompatibility as defined by law, or those who have exceeded the limit on the accumulation of appointments established by current regulations may not be elected as Statutory Auditors, and if they have been elected shall forfeit their office. Should an elected Statutory Auditor during their term of office no longer meet the requirements envisaged by the law or the By-laws, they forfeit their office.

When it is necessary to replace a Standing Auditor, the Alternate Auditor belonging to the same list as the outgoing Auditor takes over. In their absence, the next candidate on the same list as the outgoing Auditor, following the original order of presentation and regardless of the section, takes over. If the replacement involves the Chairperson of the Board of Statutory Auditors, the position is taken over by the Auditor representing the minority shareholders. The Statutory Auditors appointed in this way as replacements remain in office until the following Shareholders' Meeting.

If it is necessary to integrate the Board of Statutory Auditors:

- to replace a Statutory Auditor elected from the majority shareholders' list, the appointment takes place with a simple majority vote of the share capital represented at the Meeting, choosing from among the candidates indicated in the original majority shareholders' list;
- to replace a Statutory Auditor elected from the minority shareholders' list, the appointment takes place with a simple majority vote of the share capital represented at the Meeting, choosing from among the candidates indicated in the original minority shareholders' list;
- for the simultaneous replacement of Auditors elected from both the majority and the minority shareholders' lists, the appointment takes place with a simple majority vote of the share capital represented at the Meeting, choosing from among the candidates indicated on the list to which each Statutory Auditor to be replaced belonged, appointing a number of Statutory Auditors equal to the number of outgoing Statutory Auditors from the same list.

If it is not possible to proceed as described above, the Shareholders' Meeting called to supplement the Board of Statutory Auditors shall resolve by a relative majority of the share capital represented at the Meeting, without prejudice to the principle that the minority must always be guaranteed the appointment of one Standing Auditor and one Alternate Auditor. In any case, the Chairpersonship of the Board of Statutory Auditors must be assigned to the Statutory Auditor representing the minority shareholders. The replacement procedures referred to in the preceding paragraphs must in any case ensure compliance with current legislation on gender balance.

Pursuant to the Code, the Statutory Auditors are chosen from among persons who also qualify as independent under the criteria laid down for Directors.

The Statutory Auditors annually verify the continued compliance with independence requirements. There are no commercial, professional, or financial relationships of any kind between the Company and/or its subsidiaries and the Statutory Auditors.

2. COMPOSITION AND FUNCTIONING OF THE BOARD OF STATUTORY AUDITORS

The Board of Statutory Auditors, in office for three years until the approval of the financial statements at December 31, 2025, was appointed by the Shareholders' Meeting on April 27, 2023 and is composed of Pierluigi De Biasi, Chairperson, Antonia Di Bella and Gabriele Villa. The Alternate Auditors are Maria Maddalena Gnudi, Michele Casò and Maria Francesca Talamonti.

The Board of Statutory Auditors was appointed using the list voting system: Gabriele Villa, Antonia Di Bella, Maria Maddalena Gnudi and Michele Casò were selected from the majority list submitted by CFN Generale Fiduciaria S.p.A.; Pierluigi De Biasi and Maria Francesca Talamonti were selected from the minority list submitted by

institutional investors. The lists are available in the "Governance/Shareholders' Meeting/Shareholders' Meeting Archive" section of the Company's website. Further detailed information on the Board of Statutory Auditors is provided in the table set out at the end of this Report.

All members are independent under the CLF and meet all independence requirements set out in the Code for Directors, as well as the integrity and professionalism requirements necessary for the exercise of their functions. Immediately after their appointment, the Board of Statutory Auditors verified compliance with the independence requirements and notified the Board accordingly. Compliance with the Code was most recently assessed in February 2026, and the Board was informed of the results.

Furthermore, the Board of Directors verified that the Statutory Auditors met the specific requirements of integrity, correctness and professionalism prescribed by law for corporate officers of legal entities that, like Italmobiliare, hold qualified shareholdings in companies in the financial and insurance sectors.

The curriculum vitae of each Standing Auditor is available in the "Governance/Statutory Auditors" section of the website (www.italmobiliare.it) and is also included at the beginning of the Annual Financial Report, together with the offices they hold.

During 2025, the Board of Statutory Auditors held a total of 13 meetings – six of which were held jointly with the Control and Risk Committee – each lasting approximately one and a half hours on average, with attendances shown in the tables at the end of this Report, in addition to having participated in all meetings of the Company's other Board Committees. The Independent Auditors, the Financial Reporting Officer, the Head of Internal Audit and other department heads were invited on various occasions to meetings of the Board of Statutory Auditors to provide relevant insights into the items on the agenda. During the year, the Board also met with the Supervisory Body and representatives of the control bodies of the main associate companies.

In accordance with the CLF, the Board of Statutory Auditors oversees: *i)* compliance with the law and the By-laws; *ii)* compliance with the principles of sound administration; *iii)* the adequacy of the Company's organisational structure for matters within its competence, the internal control system and the administrative-accounting system, as well as its reliability in providing a true and fair view of the Company's operations; *iv)* the implementation of the rules laid down in the Corporate Governance Code adopted by the Company; *v)* the adequacy of the instructions issued by the Company to its subsidiaries to ensure the correct fulfilment of the reporting obligations laid down by law.

Moreover, pursuant to Article 19 of Legislative Decree 39/2010, the Board of Statutory Auditors, acting as the "Internal Control and Auditing Committee" is responsible for:

- a) informing the Board of Directors of the results of the external audit and the sustainability reporting assurance process, and submitting to the Board the additional report prepared by the Independent Auditors, together with any observations;
- b) monitoring the financial reporting process, the sustainability reporting, the procedures implemented by the Company to comply with the reporting standards adopted by the European Commission, as well as making recommendations or proposals to ensure its integrity;
- c) verifying the effectiveness of the Company's internal quality control and risk management systems, as well as internal auditing, with respect to financial and sustainability reporting, without infringing upon their independence;
- d) monitoring the independent audit of the financial statements and consolidated financial statements, as well as the assurance process for sustainability reporting, taking into account the results and conclusions of any quality checks carried out by CONSOB, where available;
- e) checking and monitoring the independence of the independent auditors and the sustainability assurance provider, particularly with regard to the appropriateness of non-audit services provided;
- f) overseeing the procedure for selecting the Independent Auditors to be recommended to the Shareholders' Meeting for appointment.

The Chairperson of the Board of Directors has arranged for the Statutory Auditors to participate in the most appropriate forms in initiatives designed to provide them with appropriate knowledge of the sectors in which the Company operates, the corporate dynamics and their evolution, the principles of sound risk management, and the relevant regulatory and self-regulatory framework. In particular, during the financial year, the Statutory Auditors attended the induction meetings organised by the Company for the Directors.

The remuneration of the Statutory Auditors is commensurate with the commitment required, the relevance of their role and the size and sector-related characteristics of the business. Please refer to the “Report on the Remuneration Policy and Compensation Paid” for further information.

Any Statutory Auditor who, on their own behalf or on behalf of third parties, has a direct or indirect interest in a Company transaction, must promptly inform the other Statutory Auditors and the Chairperson of the Board of Directors, detailing the nature, the terms, the origin, and the extent of such interest.

In performing its activities, the Board of Statutory Auditors coordinated with Internal Audit and with the Control and Risk Committee. This coordination is ensured by the Board of Statutory Auditors attending all meetings of the Control and Risk Committee, through ongoing exchanges of information between the Chairmen of the two corporate bodies as necessary regarding matters of mutual interest, and through frequent meetings with the Head of Internal Audit at Board of Statutory Auditors meetings and at those of the Control and Risk Committee.

For the activities carried out during the 2025 financial year, please refer to the report prepared pursuant to Article 153 of the Consolidated Law on Finance.

VI. Codes of conduct, procedures and other corporate governance practices

1. CODE OF ETHICS, SUSTAINABILITY POLICIES AND RESPONSIBLE INVESTMENT POLICY

The Company introduced the Code of Ethics in 1993, revising and updating it periodically. The current text was last amended in 2024.

The Code of Ethics sets out Italmobiliare's fundamental principles and rules of conduct.

The Sustainability Policies, also updated in 2024, complement and extend the Code of Ethics. The “Guiding Principles” are the cornerstone, with further details contained in six dedicated policies covering health and safety, diversity and inclusion, environment and resources, energy and climate, rights and society, and quality and responsibility.

The Responsible Investment Policy, adopted in 2021 and last updated in 2024, defines all phases of the investment management process: sector-related principles and criteria, pre-investment, active management and disposal.

Based on these three documents, which together constitute a solid reference framework for the Group's sustainable success, the Supplier Charter was adopted in 2022 and was renamed the Partnership Charter in 2024. This charter requires suppliers of goods and services, contractors, distributors, customers, and any other business partners to effectively and demonstrably align with the principles expressed in the Code of Ethics and the Sustainability Policies.

In turn, the Group's subsidiaries adopt their own Code of Ethics, Sustainability Policies and the Partnership Charter, which are harmonised with those of Italmobiliare.

The Code of Ethics, Sustainability Policies, Responsible Investment Policy and the Partnership Charter are available on the Company's website (www.italmobiliare.it) in “The Company/Vision and Mission” and “Sustainability” sections.

2. DIVERSITY POLICIES IN THE COMPOSITION OF CORPORATE BODIES

The Sustainability Policies, which were most recently amended by the Board of Directors on December 17, 2024, and are available on the website under the ‘Sustainability/Documents’ section, include diversity policies relating to the composition of the governing and control bodies.

These policies were adopted on the premise that the Board of Directors, as a forum for open dialogue and constructive discussion, plays a crucial role in fostering sound decision-making, overseeing corporate management, and promoting sustainable success.

In compliance with applicable legal and statutory provisions, gender diversity, professional profiles, educational background, experience and age inform the orientation opinion on its composition, which the outgoing Board prepares for shareholders at the end of its term, taking into account the recommendations emerging from the self-

assessment process. The same principles apply to the composition of the Board of Statutory Auditors, ensuring constructive and effective interaction with the Board of Directors. Both directors and statutory auditors must possess skills and experience that, in light of Italmobiliare's portfolio composition, enable them to contribute meaningfully to board discussions. Shareholders, when submitting candidate lists, and directors, when co-opting a new director, assess candidate profiles without any form of discrimination.

All this considered, it should be noted that the composition of the Board of Directors and Board of Statutory Auditors of Italmobiliare has consistently evolved over time in accordance with best practice, in order to ensure adequate representation in terms of experience, age and gender. A balanced gender representation is ensured on the current Board of Directors, with the presence of 5 female Directors out of 12, i.e. 42%. Thanks to the variety of their professional backgrounds and career paths, the members currently in office guarantee the contribution of qualified and complementary skills to the Company's governance.

Diversity in composition was recommended in the advisory opinion on the qualitative and quantitative composition and the professional skills required on the Board, which the outgoing Board of Directors issued in view of the Shareholders' Meeting for the renewal of the corporate bodies.

Likewise for the current Board of Statutory Auditors: one out of three Standing Auditors and two out of three Alternate Auditors are female.

As from 2021, the Board of Directors has strengthened efforts to protect and enhance the value of the Company's employees. The Code of Ethics identifies the levers of success in the creation of an inclusive work environment, continuous training, the promotion of health, safety and well-being and the enhancement of diversity. In confirmation of the specific commitment to gender equality, considered an essential element for the professional growth of the Company, Italmobiliare has signed and promotes in all Group companies the "Women's Empowerment Principles" laid down by the United Nations' UN Women and Global Compact. Accordingly, the Sustainability Policies aim to implement work practices based on fair employment, equal opportunities, skills development and inclusiveness, viewing diversity as a source of value. Lastly, the new Responsible Investment Policy explicitly includes in its value creation objectives the contribution to Sustainable Development Goal no. 5 (SDG 5 – Gender Equality), dedicated to achieving gender equality and empowering all women.

For completeness, it should be noted that in its portfolio companies as well, Italmobiliare, as a consolidated practice and in line with its commitment to gender equality, adheres to criteria of competence, independence, and gender representation when appointing corporate body members.

3. PROCEDURES FOR MANAGING INSIDER INFORMATION AND THE INSIDER LIST

The Company has adopted a procedure for the management of insider information, i.e., information of a precise nature, that has not yet been made public, directly or indirectly concerning Italmobiliare or its financial instruments, which, if made public, could have a significant effect on the price of listed financial instruments issued by Italmobiliare and related derivatives.

The rules of conduct and principles set out in the procedure aim to:

- ensure the utmost confidentiality of inside and relevant information (i.e., information that could subsequently, even in the near term, become inside information), balancing the interest in maintaining confidentiality while the information is being developed with the obligation to disclose it in a non-selective manner;
- safeguard investors and market integrity, preventing situations of information asymmetry and preventing any party from using non-public information to trade on the markets;
- define the process for identifying and managing relevant information;
- define the processes for identifying and managing inside information;
- protect the Company against any liability arising from unlawful conduct involving market abuse by persons traceable to the Company and, more generally, from conduct that violates the principle of confidentiality.

The procedure constitutes an essential component of the Company's Internal Control and Risk Management System and of the overall system for preventing the offences referred to in Legislative Decree 231/2001, in particular the Organisational Model adopted by the Company for this purpose. It is available on the Company's website (www.italmobiliare.it) in the "Governance/Documents and Procedures" section.

The rules set out in the procedure are binding on all Company employees, members of the Board of Directors and the Board of Statutory Auditors, as well as on all those who have advisory or collaborative relationships with the Company and/or the Group.

The Company has also adopted a new procedure for registering individuals with access to inside information (the so-called "insider list" procedure) which is closely linked to internal regulations on the management and disclosure of inside information. The procedure was adopted to fulfil the obligation to draw up a list of people who, by reason of their work, professional activities, or the functions they perform, have access to inside information concerning Italmobiliare. It is available on the Company's website (www.italmobiliare.it) in the "Governance/Documents and Procedures" section.

4. THE CODE OF CONDUCT ON INTERNAL DEALING

In accordance with the relevant European and national regulations, the internal dealing framework concerns market transparency of transactions involving financial instruments issued by Italmobiliare, as well as derivatives or other related financial instruments, carried out by "relevant persons" (including the Company's Directors, Statutory Auditors, and key management personnel) and by specific categories of persons closely associated with them.

The Code of Conduct on Internal Dealing is an essential component of the Company's Internal Control and Risk Management System, as well as of the overall system for preventing the offences under Legislative Decree 231/2001 and, in particular, of the Organisational Model adopted by Italmobiliare for this purpose.

Under the Code, the reporting obligation arises if the total value of transactions involving Italmobiliare shares exceeds 20,000 euro in a calendar year.

The Code of Conduct also provides that relevant persons and persons closely related to them must refrain, during the year, from carrying out transactions in Italmobiliare's listed financial instruments in the 30 days prior to the Board of Directors' review of the results, until the publication of the related press release.

The Code is available on the Company's website (www.italmobiliare.it) in the "Governance/Documents and Procedures" section. All internal dealing reports filed during the year are available in the "Governance" section.

5. DIRECTORS' INTERESTS AND TRANSACTIONS WITH RELATED PARTIES

Since 2010, the Board of Directors has adopted the Procedure for Transactions with Related Parties in accordance with Consob's RPT Regulation of March 12, 2010. The Procedure has been amended over time, most recently in 2021 to reflect the changes introduced by Consob Resolution no. 21624 of December 10, 2020, on the proposal of the Committee for Transactions with Related Parties composed of independent directors Valentina Casella (Chairperson), Elsa Fornero, and Mirja Cartia d'Asero, who were appointed on April 27, 2023.

In 2025, it was not necessary for the Committee to hold any meetings. In the first quarter of 2026, the Committee met once, in a joint session with the Remuneration and Nominations Committee, to express its reasoned opinion on the payment of an end-of-term indemnity in favour of the Chairperson. The Committee's involvement was required because this payment does not fall within the scope of the Remuneration Policy approved by the Company (which nonetheless allows for derogations for certain elements, including end-of-office indemnities), and the amount of 400,000 euro also exceeds the thresholds set out in the "Procedure for Transactions with Related Parties" adopted by the Company for exempting a related-party transaction from the application of the related control measures. The Committee expressed a favourable opinion on the Company's interest in carrying out the transaction, as well as on the appropriateness and substantive fairness of its terms.

During the year, the Committee and the Board of Statutory Auditors were informed on a quarterly basis by the Financial Reporting Officer of any related-party transactions carried out during the reporting period and exempted from the control safeguards of the Procedure, including transactions with subsidiaries and associates and transactions of minor amounts.

The Procedure is designed to ensure that transactions with related parties, and with parties similar to related parties, whether directly or through Italmobiliare's subsidiaries, are conducted transparently and in compliance with principles of substantive and procedural fairness, while also facilitating the identification and appropriate management of situations in which a Director has an interest, either on their own behalf or on behalf of third parties.

The Procedure distinguishes "transactions of greater importance" from those of "lesser importance" on the basis of specific criteria predetermined by Consob. This distinction serves to determine the transparency rules that are applicable: less stringent for transactions of lesser importance and more stringent for those of greater importance.

The main changes introduced by the RPT Regulation and incorporated into the Procedure with effect from July 1, 2021, concern:

- an updated definition of "related party", now aligned with the definition provided in IAS 24;
- a new and broader definition of "director involved in the transaction", required to abstain from voting on the related party transaction;
- the timing according to which the independent directors serving on the Committee for Transactions with Related Parties: i) receive information at least once a year on the application of exemptions, at least for transactions of "greater importance"; ii) verify correct application of exemptions for transactions of "greater importance," defined as "ordinary and concluded at market or standard conditions";
- timely involvement of the Committee for Transactions with Related Parties in transactions of "greater importance," both during the negotiation phase and in the preliminary phase, through the receipt of information that is not only complete but also "up-to-date";
- the express obligation to attach the Committee's opinion to the minutes of the Committee meeting for transactions of "greater" and "lesser" importance;
- the express automatic non-application of the RPT Regulation to transactions of minor amounts;
- the express exemption from application of the procedural safeguards for transactions approved by the Company and addressed to all shareholders on equal terms;
- the subordination of the exemption for "ordinary transactions concluded at market or standard conditions" to the communication to Consob – and to the directors or independent directors who provide opinions on related party transactions – of a substantiated reasoning on the existence of such elements, which must also include objective supporting evidence (Article 13, paragraph 3, letter c), i), RPT Reg.).

The Procedure governing how related-party transactions should be carried out is available on the Company's website (www.italmobiliare.it) in the "Governance/Documents and Procedures" section.

6. GENERAL DATA PROTECTION

The Company has implemented the provisions of Regulation (EU) 2016/679 – General Data Protection Regulation (GDPR) and continuously monitors their application. The Data Controller is the Company, represented by the Chief Executive Officer, assisted by a Privacy Coordinator responsible for defining, updating, and managing the personal data protection framework. The Privacy Coordinator, appointed by the Board of Directors, is Lawyer Giacomo Cardani, who is required to report annually on the activities carried out in relation to the privacy organisational model.

During 2025, the Company, with the support of the Privacy Coordinator, addressed various matters related to the protection of personal data. Specifically: (i) the Records of Processing Activities maintained by the Company, both as Data Controller and Data Processor, were updated; (ii) in-depth analyses were conducted on the collection and storage of data relating to the commencement of employment; (iii) a verification was carried out on the proper use of the video-surveillance system; (iv) relationships with certain suppliers processing personal data in the course of their services were regulated in accordance with the GDPR; (v) the policy governing the use of artificial intelligence systems in the workplace was supplemented with provisions relating to personal data protection.

The Board of Directors and the Board of Statutory Auditors were informed of the recommendations contained in a letter from the Chairperson of the Corporate Governance Committee.

Unless otherwise specified in the preceding sections, since the end of the 2025 financial year no changes have occurred that could significantly affect the contents of this Report.
